

World Bible School

This Sunday, July 11, we are looking forward to a special presentation from World Bible School.

Richard Patton who serves as Church Relations Representative for WBS will speak to us during our Bible class. Richard and wife LeAnne during their 31 of marriage have served churches in Montana, Wyoming, South Dakota, and Colorado.

We will be learning about WBS's programs using new technologies designed to reach people in the USA. Presently, America has the fourth largest number of WBS students of all countries with a 61% increase in students last year.

Our congregation has a long and successful history with WBS. For many years, Frank and Ethel Whisler, Marty and Pat Garton, Marion Meade, Nell Egli and others taught thousands of WBS students in Africa by mail, a laborious process, with every communication taking weeks and weeks. Harry Hodges and Fred Taylor were supporters of this mission effort. Today, most students are taught through the internet with a new method coming soon using a smartphone.

A restart of our relationship with WBS is being considered and our Elders would like input from our members about this opportunity.
