

FCABC LIFE GROUP DQS

1) Kevin described his default outlook as that of a skeptic, and yet faith sustained him through a life-threatening illness. **In what ways has doubt or skepticism shaped your own spiritual journey, and how have you seen God work in spite of it?**

2) Paul's declaration in 1 Corinthians 6:19-20 that your body is the temple of the Holy Spirit challenges the modern mindset of 'my body, my choice.' **How does truly believing you belong to God change the daily decisions you make about your physical, mental, and spiritual life?**

3) Kevin received advice to ask God what he should pray for, rather than immediately asking for healing. **How often do you approach prayer this way, and what might change in your prayer life if you did?**

4) Kevin used the image of God displaying believers as trophies on His mantelpiece in heaven. **How does thinking of yourself as a vessel for God's glory, rather than the source of it, change the way you interpret both your successes and your hardships?**

TAKE HOME / CHALLENGE QUESTION

1) Socrates said the unexamined life is not worth living, and Psalm 139 echoes this by inviting God to search our hearts. **What areas of your life have you avoided examining honestly before God, and what might it look like to invite Him into those spaces?**
