# **Bible Prophecy Update –January 10<sup>th</sup>, 2021**

## ***Decision Time***

**JD Farag**

Good morning and welcome. We're so glad that you're joining us, and I'm so glad to be back. I had a couple of weeks off to spend time with my family and spend time with the Lord. I am so refreshed and thrilled to be back. We're so thrilled that you're joining us today.

On Sunday mornings, we have two services. The first of which is devoted to the Prophecy Update, and the second service, which will be live-streamed at 11:15 a.m. Hawaii time is our verse-by-verse study through the Bible. We are currently in the book of 2 Timothy, and we'd encourage you to join us at that time - 2nd service.

Today I'm going to talk about how we can both identify and be on guard against those with evil motives and corrupt minds. I think you would agree that we're living in a world today where evil is waxing worse and worse, seemingly by the day. Actually, today's teaching as it has in the past is going to sort of tie in with the Prophecy Update, fill in a couple of blanks, and maybe connect a couple of dots as it relates to when evil seems to prevail and prosper. But God. But God will always have the final word, and as we see evil in this day in which we live, it is important to remember that God sees all, knows all, and, in the end, will have the last word. I want to talk about that in the 2nd service and encourage you to join us at that time.

Also, before we get started doubtless, you've heard about what's happening with social media platforms, and it's actually why we sensed that the Lord would have us to launch this prophecy website at JDFarag.org. So, this is the "go-to," we have the link below there on YouTube should anything happen. This is where you need to go, and everything will be there, and Lord willing, we'll still be there. It's our domain. It's our website, so we can't be censored. So, if you haven't already, you might want to check it out.

We have many people who have subscribed for those who have, and we appreciate your patience with us. You have not yet received a notification, but please know that you are subscribed, and we are planning, Lord willing, very soon to start sending out notifications. That might actually be sooner than later with the way everything is going.

All right, let's get started. What a start to 2021! Yeah? Oh, my goodness. While what happened at the Capitol and what still could happen on or before the inauguration, I sense that the Lord would have me address the decision that everyone in the world is now faced with or will be faced with today. As such, I want to answer the most often asked questions concerning what now seems to be "decision time," as it were specifically, as it relates to the vaccine roll-out, and what I would argue is the ensuing requirement to take it in order to travel, in order to work, and even in order to buy and sell. It's my hope that in so doing, we'll all have a much better understanding and be encouraged by virtue of what this means.

What does this mean? The rapture can happen at any time. That's what this means. I think about what the Apostle Paul wrote to the Thessalonian church in his first epistle, chapter 4. At the end of that chapter, after talking specifically, even explicitly about the rapture, he says to this battle-weary church, be encouraged, and I know you are, and I know that you're also encouraging one another with these words.

What words? That the rapture is imminent. That's what this means. If you're here today or watching online and you're discouraged? Oh, be encouraged. Be encouraged because this is exactly what we were told would happen at the time of the rapture. I think about what Jesus said that He came to give us a peace, not as the world gives, it's the peace that only He can give. The Apostle Paul writing to the Philippian church in chapter 4, describes it as this supernatural peace that surpasses human understanding, human logic. It's unfathomable. It's incomprehensible in the natural because it's supernatural. It supersedes the natural, and that's the kind of peace that God wants us to have in these last moments of world history, in this age as we know it.

### ***Decision Time***

**JD Farag**

I hope you'll bear with me because I'm going to try something I've never done before and do a follow-up of sorts on this. The reason is that the amount of information is so voluminous and so detailed that it would take an inordinate amount of time to read it - let alone expound on it. I made this decision after seeking the Lord, and Lord willing, and unless the Lord directs me otherwise, next Sunday, the 17th, Lord willing, we'll go more in-depth into this very serious issue. I would venture to say it is the most serious issue that we face today.

Now for those of you online, and for those of you here as well, you're going to notice that we have several links below the video. I would really encourage you to look at them because they are what I will refer to as the "forensic evidence" of what we're going to look at today. We're not going to cover all of them again in the interest of time, but I want you to have them to do your own research and not just online, but first and foremost in God's Word, and the reason is that we're going to take and tackle this very touchy topic from a biblical perspective first - first!

I would encourage you to search the Scriptures for yourself and not take my word for it. This is Acts 17:11, as you know where we're told that "The Berean Jews were of more noble character than those in Thessalonica." That's not a "dis" [criticism] to the Thessalonians. It's just a compliment to the Bereans. Why were they of a more noble character? Because listen to this, they received the message. They were receptive to it, and not only did they receive it, [but] they received it with great eagerness. Not only did they receive it with great eagerness, they examined it, and they searched the Scriptures. Not only did they search the scriptures, but they did it every day, every day, and we're told why. It's because they wanted to see if what Paul said was true.

I want you to do that. I want you to search the Scriptures. I want you to examine the Scriptures that we're going to start with, and I want you to see if what I'm going to say today is true. Will you do that? Yeah. Okay. We're going to have the ushers pass out a signed document that you're... We don't even have ushers, really. We don't need them. We do actually have ushers. They are called security. Alright, are you ready? We're going to get started. That wasn't very convincing. Should we bow our heads, close our eyes so you could slip out right now? All right.

I want to invite you to join me in the book of Revelation. We're going to spend just a little bit of time here, and we're going to start with the most well-known passage about the mark of the beast. Revelation Chapter 13, and I want to read verses 16 through 18. "It also forced all people, great and small, rich and poor, free and slave, to receive a mark on their right hands or on their foreheads, so that they could not buy or sell unless they had the mark, which is the name of the beast or the number of its name.

This [verse 18] calls for wisdom. Let the person who has insight calculate the number of the beast, for it is the number of a man. That number is 666.

Revelation Chapter 14 verses 9 through 11, "Then a third angel followed them, saying with a loud voice, 'If anyone worships the beast and his image, and receives his mark on his forehead or on his hand, he himself shall also drink of the wine of the wrath of God, which is poured out full strength into the cup of His indignation.' He [speaking of those who take the mark, listen] shall be tormented with fire and brimstone in the presence of the holy angels and in the presence of the Lamb. And the smoke of their torment ascends forever and ever. And they have no rest day or night, who worship the beast and his image, and [here it is again] whoever receives the mark of his name."

Revelation 16:2, it gets worse. "The first angel went and poured out his bowl on the land, and ugly, festering sores broke out on the people who had the mark of the beast and worshiped its image." Sounds like a medical reaction, doesn't it?

Revelation 20, verse 4, "And I saw thrones [John writing by the Holy Spirit], and they sat upon them, and judgment was committed to them. Then I saw the souls of those who had been beheaded for

**JD Farag**

their witness to Jesus and for the word of God, who had not worshiped the beast or his image and had not received his mark on their foreheads or on their hands. And they lived and reigned with Christ for a thousand years."

That's the Kingdom Age, the Millennial Reign. That's not the church. These are who we affectionately refer to as the "Tribulation Saints" that reject the Antichrist, the mark of the beast, and it cost them their life. It cost them their head. But John writes how he sees them on the thrones, and they're not just sitting there, but judgment has been given to them. In fact, John even asks, who are these, Lord? Oh, these are those who were beheaded in the 7-year tribulation because they refused the mark of the beast, and they refused to worship the image of the beast. That's who they are.

Revelation 19, verse 20, "Then the beast was captured, and with him the false prophet who worked signs in his presence..."

By the way, again, 2 Timothy Chapter 3, today our text is going to be in verses 6 through 9. If you're able to join us, we will be talking about counterfeit signs and wonders. Make no mistake about it, Satan is able to counterfeit miracles in the realm of the supernatural. He's the master counterfeiter, and it's really going to be by signs and wonders. We learned this in our study through 2 Thessalonians, particularly chapter 2. There are going to be lying signs and wonders, and the intent of these is to deceive, which is what we're going to read now.

Pay particular attention to what it says, "by which, he [speaking of the beast and the false prophet deceived those who received.] deceived those who received the mark of the beast." What a deception. They were deceived. That's why they received the mark of the beast. "and those who worshiped his image. These two were cast alive into the lake of fire burning with brimstone." Ho, I Can't wait! I've already asked the Lord for reserve-seating, front row. Is that bad?

Revelation 18:23, I want you to really pay particular attention to this. It's speaking of the fall of Babylon, the judgment on Babylon the Great. "The light of a lamp shall not shine in you anymore, and the voice of bridegroom and bride shall not be heard in you anymore. For your merchants were the great men of the earth, for by your sorcery, all the nations were deceived." Wait! Did you catch that? The whole world is deceived; every nation! Deceived! Pray tell, by what? Oh, by sorcery. Sorcery, hang on to that. We'll come back to that.

Revelation 9 verse 21, "And they did not repent [look at this list] of their murders or their [and here it is again] sorceries or their sexual immorality or their thefts." Okay.

I think it's incumbent upon me if you'll kindly allow me to embark on a closer examination of two words. The word "mark" and the word "sorcery." First, the word mark. The word, mark, in the original language of the Greek New Testament, is "Charagma" from the root word "charax." It carries with it the idea of a stamp, tattoo, stake, or palisade. Let's talk about sorcery. The original word for sorcery is the Greek word "pharmakeia," where we get our English word for pharmacy and pharmaceutical. It carries with it the idea of magic potion, even poison, used in ritual witchcraft and satanic magic arts - pharmakeia.

Now, it's with this understanding that I think we're ready to answer the aforementioned questions concerning the roll-out of this pharmaceutical vaccine.

Question #1. Will the vaccine become the mark of the beast foretold of in the book of Revelation? Answer: Yes. I believe it will become the mark by virtue of the detail provided vis-a-vis the original translation in the book of Revelation. In other words, according to the book of Revelation, the mark will be a pharmaceutical tattoo with sharp palisade needles that is stamped on the forehead or forehead delivering the poison.

### ***Decision Time***

**JD Farag**

Wow, Pastor, where'd you get that? We just read it! I'm sorry. That was kind of mean. I didn't mean to yell at you. But, right? That's why we go to the Word first. I don't mean to be snarky. Maybe I do! We go first and foremost to the Word!

Oh, but wait a minute, so and so said. I don't care what so and so said. It doesn't matter what so and so said. It only matters what did God say in his Word. Come on, that's conspiracy. I'm sorry, Lord. Okay, whatever... Whatever! See what happens when I take a couple weeks off? We're going to talk about 2 Timothy in the 2nd service, by the way

, about the paramount importance of knowing the Word of God. Listen, we do not live in a world that is forgiving. We may have used to live in this world, but that world does not exist anymore—the world where it was more forgiving of not really knowing God's Word. We don't live in that world anymore. I honestly do not know how Christians are going to survive in the days ahead, not knowing the Word of God. We have to know God's Word and the reason why. I'm preaching the 2 Timothy Sermon in the Prophecy Update. Maybe I need to, I don't know.

But here's the thing. There are these deceivers that Paul is warning Timothy about. The reason they're able to deceive the vulnerable and the gullible is because they don't know God's word, which is why they're so vulnerable and gullible in the first place. These corrupt minds, these evil motives, these people worm their way in. They smell it; they can sniff it out. Easy prey, fishing out of a bucket. Is that how that goes? I don't know. Let's just say that's how it goes. All right, back to our Prophecy Update already in progress.

Palisades, what's a palisade? I'm so glad you asked. Pictured here is a photo of a medieval palisade, which is a sharp-pointed fang-like stake that was used as a defensive structure. That's what a palisade is, and that's what the original word in the Greek New Testament for mark says it is.

This is a screenshot from newsbreak.com back on October 27th, in which they show this photo saying, "The details from the Greek term for Mark (stamp or scratch), when considered with today's technology, reveal both the shocking accuracy of Scripture, as well as the way the coming infamous, soul-damning Mark of the Beast will be administered." Do those look like Little palisades to you?

How about this one? This was from Wednesday, last Wednesday, January 6th. What a day that was, by the way. BBC News publishes this article titled, "COVID: Swansea Uni develops 'world's first' vaccine smart patch." "The first coronavirus vaccine, 'smart patch,' is being developed at a Welsh university, researchers say. The disposable device uses micro-needles [palisades] to both administer the vaccine and monitor its efficacy by measuring the body's immune response. A prototype will be developed by the end of March in the hope it can be put forward for clinical trials."

Listen to this. "Swansea University researchers aim to make the device commercially available within 3 years. Perfect! Perfect timing. Right on schedule. What do you mean, Pastor? Oh! Three years and... March, so let's just call it 3.5 years. Does that sound familiar to anyone? 3.5 years, at the mid-point of the 7-year tribulation, according to Daniel 9:27, and it comports with 2 Thessalonians Chapter 2, the Antichrist will set himself up in the rebuilt temple in Jerusalem and demand to be worshiped - at the mid-point. I don't know, do these people like, read the Bible, and say, we need to have this ready in 3 years, 3.5 years, roughly? They go on.

I'm still quoting, "The 'smart patches' millimeter-long micro-needles, made from polycarbonate or silicon, will penetrate the skin to administer a vaccine. It will simultaneously measure a patient's inflammatory response to the vaccination by monitoring biomarkers in the skin. You do know what that's referring to, right? Then listen to this, "The device is then scanned..." Oh! Wait, scanned? Forehead or arm.

Oh, kind of like it is now, you'll forgive me, but aren't you scanned when you go into some places now - on your forehead? That's what I thought. Oh, it's all preparation. See, right now, you can't go

## **Bible Prophecy Update –January 10<sup>th</sup>, 2021**

### ***Decision Time***

**JD Farag**

to that doctor's appointment unless they first scan your forehead and take your temperature, or so they say. It's coming, apparently in 3.5 years-ish, heavy on the "ish," where they're going to have now this technology, this biotechnology, that they will scan.

It will be proof of your vaccination. If they scan you and see that you have the vaccination: you can enter on in, you can get on that plane, you can go into that doctor's office, you can go into that store, you can go into your work. But you have to be scanned first.

"The device is then scanned, providing a data reading that can be used to understand the efficacy of the vaccine and the body's response to it." That's why I believe it will be-come, keyword, the mark of the beast.

Question #2. Will the vaccine change your human DNA? Answer: Yes. I would suggest that this is why we're told in Revelation 14:9-11, that we just read, that those who take it will be damned and doomed to eternal torment. They will drink to the full from the cup of the indignation and the wrath of God. Why? Because they took the mark? Wow, that seems kind of disproportionate. Oh, wait a minute. Not when you understand that those who take it are no longer human.

Actually, on December 13th, if you're interested, we devoted an update to the altering of the human DNA as it was in the days of Noah where the bloodline was corrupted by Satan's seed, and the human DNA was changed. That's why God destroyed the earth, doomed and damned the earth. They were no longer human. They were a hybrid. See, Jesus came as a man to redeem man. Satan knows that, and that's the "why" behind the "what." Okay.

Let's talk about this. Again, this is why we go to Scripture first, right? A couple weeks ago, on December 22nd... I hesitate because we tried to provide the links, but they kept getting taken down to this video, so we actually have the link to Truth Matters, their website. I don't know if it's there yet, but I sure hope they post it.

But it's t's a must-see video of a full interview with Catherine Austin Fitts. It's part of a documentary that's going to be coming out. The interview is with these doctors and experts and professionals are going to be in that upcoming documentary. This Catherine Austin Fitts is an American investment banker and former public official who served as managing director of Dillon, Read & Co. and as the United States Assistant Secretary of Housing and Urban Development for Housing during the Presidency of George H. W. Bush.

I want you to listen to this quote in which she describes not only altering the human DNA but, get this, installing an operating system in the human body for the purpose of connecting it to the coming financial system. Quote, "They want to combine this with transhumanism, which means literally, you know, I take injections that can institute the equivalent of an operating system in my body, and so I'm hooked up to the financial system literally, physically." Close quote.

Let's see, operating systems have to be upgraded. Hmm. I wonder if that's why there needs to be a second vaccine. It's a booster shot. Come on! I found this from Moderna's own website, speaking of installing an operating system via the vaccine. This is a screenshot from Moderna's site in which they describe in great detail what they refer to [their words] as their operating system.

Quote, "Our Operating System -" "Recognizing the broad potential of mRNA [m is for messenger RNA] science, we set out to create an mRNA technology platform that functions very much like an operating system on a computer. It is designed so that it can plug and play [more like plug and pray] interchangeably with different programs. In our case, the "program" or "app" is our mRNA drug [pharmaceutical, sorcery] - the unique mRNA sequence that codes [DNA] for a protein."

Still quoting, "Our mRNA Medicines - The 'Software of life'" - [more like the software of death], quoting, "Utilizing these instruction sets gives our investigational mRNA medicines a software-like

## Bible Prophecy Update –January 10<sup>th</sup>, 2021

### *Decision Time*

JD Farag

quality. We also have the ability to combine different mRNA sequences encoding for different proteins in a single mRNA investigational medicine." Again, the links are below.

But I have links to videos of Bill Gates, in his own words, using a model of the human DNA strand talking about how they cut it using what's known as CRISPR-Cas9 technology, which, Lord willing, again we'll talk more about in-depth next week. It actually splices your human DNA and inserts this operating system. All right, let's keep moving.

Question #3. Will the vaccine be mandated? Answer: Yes, it will. Actually, it seems that it may already be starting to happen, and here's the thing. It's not just a mandated vaccination but also a mandated detention as well. A little over a week ago, Mike Montgomery, a fellow Calvary Chapel pastor in Redwing, Minnesota, emailed me his post on Parler having to do with this proposed legislation in New York. What follows are excerpts from a 4-page PDF file that we, again, have the link to below.

Quote, "to require an individual who has been exposed to [that's pretty broad] or infected by a contagious disease to complete and appropriate, prescribed course of treatment, preventive medication or vaccination, including directly observed therapy to treat the disease and follow [track, trace] infection control provisions for the disease."

Still quoting, "The public health law is amended by adding a new section to read as follows: Removal and detention of cases, contacts, and carriers [again, that's pretty broad] who are, or may be, a danger to public health. The provisions of this section shall be utilized in the event that the governor declares a state of health emergency due to an epidemic of any communicable disease. What? Do you order... Yeah. Arbitrarily? Yeah. Any disease? Yeah. The governor? Yeah. Isn't that Cuomo? Yeah. For those of you online members in New York, we love you so much, and we'll be praying for you guys. Still quoting, I'm sorry if I'm making light of it. If I don't, I'll cry, literally, because you know I'm a crier. I cry like a man, right?

Still quoting, "The governor may order the removal and/or detention of such a person or of a group of such persons by issuing a single order... Such person or group of persons shall be detained [listen to this] in a medical facility or other appropriate facility or premises [Can you say concentration camps?] designated by the governor. A person who is detained in a medical facility, or other appropriate facility or premises, shall not conduct himself or herself in a disorderly manner, and shall not leave or attempt to leave such facility or premises."

Question #4, this is a biggie. I needed to probably save myself a little more time on Question #4: Will the vaccine have fetal tissue from aborted babies? Answer: Yes. Please hear me out, okay, on this? I need to make you aware that online searches yield only censored fact-checking sites, which to me is part and parcel to the deception we just read about in Revelation chapter 18:23, "by your sorceries, your pharmaceutical, sorceries, you deceived all of the nations. It's a deception.

Thus, the reason why they have scrubbed, censored, removed every website that in, fact, proved this to be fact. But God, right? Upon further research, one can find that it is a fact that fetal tissue from aborted babies has been used in vaccines, and, at the very least, was used in the development of this vaccine.

Now, why do I say it that way? Because nobody really knows what's even in this vaccine, as we're about to see here in a moment. Pictured here is a screenshot from AstraZeneca's global policy, and I want a quote from it. They all but admit they use fetal tissue. Quote, "Our use of human embryonic stem cells (hESCs) and other fetal tissue, [our use of fetal tissue], genetic information [DNA] other human biological samples and [get this] genetically modified organisms..."

Another one of the links that we provided is of a video from about, I think, 2015, where Bill and Melinda Gates, I think they were in Brussels, Belgium, at a conference. Bill Gates is like, you know, we

## **Bible Prophecy Update –January 10<sup>th</sup>, 2021**

### ***Decision Time***

**JD Farag**

talk about the safety of the vaccines and, you know, what we're doing, right? We're taking these needles, and we're just jamming them into the kids' arms. He does it just like this!

They were just jamming them with these genetically modified organisms. Do you know what genetically modified organisms are, right? They're organisms that modify genetics. I know that's deeply profound. "Other human biological samples and genetically modified organisms must be in line with the requirements of this policy." Oh, so you do use them? Yeah.

October 9th, NBC News reported that fetal cells from fetal tissue were used in COVID-19 drug research. Quoting, "Three COVID-19 vaccine candidates that have received federal funding through the White House's Operation Warp Speed have also used cells from fetal tissue in their research. AstraZeneca and Moderna both used the HEK293T cell line in early studies on their vaccines. Johnson & Johnson used a different cell line called PER.C6, also derived from fetal cells, to test its vaccine's effectiveness against COVID-19."

You've got ministries telling people that this is an answer to prayer. This vaccine is a miracle from God and calling any pastor or Christian that says otherwise stupid idiots. That's not an exaggeration, by the way. Talk about deception. I think about what Jesus said, were those days not shortened, even the very elect would be deceived, and no flesh [flesh, human DNA] would survive.

Still quoting, "Dr. Arnold Kriegstein, director of the stem cell program at University of California, San Francisco, said quote, "It would surprise people if they ever did find out exactly what goes into the production and testing of some of the treatments, and this [speaking of the vaccine] is a perfect example.

Question #5: Will I personally take the vaccine? You probably already know the answer to this one, right? In fact, it's the only "no" answer of all 5 questions. Absolutely not. There is absolutely no way that I will take this vaccine.

Since this whole thing started back in March and really, this is thanks to many of you. I received so many articles and reports, studies, and research from many of our online members as well. I mean, just again, the volume of the information. A lot of work, but I went through it, I researched it, I studied it, I learned so much about vaccines. What I learned is that vaccine injuries are responsible for many of the disorders rampant today and we're not just talking about physical illnesses. We're talking about mental illnesses and disorders because of vaccine injury.

But here's the problem. Because of the Act 1986 signed by one President, Ronald Reagan, no pharmaceutical company can be held liable for any vaccine injury. So, any settlements, do you know who pays out the settlements for vaccine injury? We do, the taxpayer. How did that go down? Oh, the pharmaceutical companies went to the federal government and said, hey, we can't do vaccines anymore because we're getting killed by the lawsuits that we're paying out. If we're going to do vaccines, then you're going to have to absolve us so that we're abdicated of any financial liability from vaccine injury because there's so much vaccine injury, sterilization, death that if we continue on as we have, we'll not be able to stay in business. The government signed it, and the pharmaceutical companies were off the hook in more ways than one. This hits home for me if I can just be candid with you because we have been on the receiving end of said vaccine injury in my family.

I want to draw your attention to this screenshot. It comes from a YouTube video back on December 19th by Spiro Skouras. It's posted on his YouTube channel, and we have the link there. It's an interview with Dr. Paul Thomas. This screenshot shows the results from a landmark vaccine study conducted by Dr. James Lyons-Weiler and Dr. Paul Thomas.

The study compared vaccinated children and unvaccinated children and was published in the International Journal of Environmental Research and Public Health on November 22nd, 2020, after being peer-reviewed. As you can see, the orange line representing those vaccinated is off the charts

higher than those who were not vaccinated with disorders like ADHD, asthma, anemia." Not pictured here, but if you scroll down, it's on the video. Behavioral issues, the list is quite long actually, all due to vaccine injury because of what's in the vaccine.

For those of you that are relatively close to my age, I'm so sorry, first of all, that you are. Back in our day, you know, back in the day, do you know how many vaccines we had to have before we could go to school? Take a wild guess. 5 - Thank you very much—10 points, whoever said that. I don't know what the points are for, but you've got 10 of them. 5! 5! Now does anybody want to take a guess how many vaccines kids have to have now? It's over 25! It's like 27!

I hate that clock. No clocks in heaven because it's eternity. There's no time. That alone, right there, that's worth the price of admission, as they say. Anyway, I digress. Again, I have to laugh, or I'll cry.

Do you know that today, let's just talk about here in Hawaii, if you want to enroll, even now, your child into a public school? They have to have that HPV vaccine. Do you know what that is, right? For sexually transmitted diseases for young girls and boys. What? Yeah. And boys? Yeah. HPV? Yeah. Mandatory! Or you can't go to school or be enrolled in a public school. Did you know that? Yeah, 12-13-year-old girl/boy have to have the vaccine. Really? Yeah, because it's under the banner of well, they are going to have sex anyway, so we want to protect them. No, you don't. You want to sterilize them. Don't you believe me? Okay.

I am going to try not to go Palestinian here. I don't know how well it's going to work. Do your own research. Oh, but Pastor JD, I saw where that was debunked. Oh really? Where did you see it on, Snopes? Oh, I'm so glad some of you laughed. Those of you who didn't laugh, you should be laughing because Snopes got snoped! They lie! Don't go to Snopes - unless you like to be lied to. Oh, it's debunked!

The Bill and Melinda Gates Foundation went to India - took their vaccine - all of these kids died, and the girls were sterilized for the rest of their lives. Oh, it's debunked! No, it wasn't. Deception, by your pharmaceutical sorceries, you deceived all the nations - not just India.

I'm going to take a step further. Why not? What have I got to [lose] at this point, right? This is not about a vaccine. This is about destroying the human DNA and reducing and controlling the population - population control. Again, there are videos, documents that we might even have the links to.

Out of Bill Gates's own mouth, the agenda, and this should come as no surprise. His dad was one of the founders of the eugenics movement. They had to change the name to Planned Parenthood, which is why, by the way, that Planned Parenthood abortion clinics are always in African American neighborhoods. It's to sterilize and depopulate the earth because you have to understand that population control includes controlling the population by tracking them and reducing the population. That's what this is about.

Okay, have a nice day. Just second, but God. Okay? But God. Yeah, thank you for clapping. Praise the Lord. Do you think for a second God is in heaven going, oh my goodness! The vaccine got rolled out! What are we going to do? No! Everything is going perfectly according to God's plan, God's Word. We're right on schedule. God is allowing it. That's exactly as we were told it would be, and here's the thing. God is faithful, and God can be trusted, no matter what happens or no matter how bad it gets prior to the rapture of the Church of Jesus Christ, which can happen at any time.

I am personally aware of some who either already has refused or when the time comes will refuse the vaccine after having counted the cost, and they've counted the cost, and it's going to come at a great cost. But God, again. For those who have or who are seeking the Lord concerning this decision, I want to encourage you. God will always provide. Yeah, but Pastor, I'm going to lose my job. Wait a minute. So, what, God can't provide in a different way? Please, it's one of those times where it's not

what I say; it's how I say what I say. I want to say this as lovingly but yet as firmly as I possibly can: God's going to take care of you. He can't - not.

Yeah, but if I go into work and it is decision time, they say you have to take this vaccine. What's in it? You have to take it to find out. Sounds familiar, actually. Sorry, I again digress. And if you don't take it, then I'm sorry you cannot work here. Okay. What am I going to do? You don't think God's going to take care of you, Romans 8:32? If God was willing to give you His only begotten Son because of His love for you, He would not withhold His only begotten Son. I wouldn't do that for you. I would not give you one of my sons. I love you, but I don't believe that much. Is that okay? I mean, you don't love me that much either. But God does. If He loves you that much, so much that he's unwilling to withhold His only begotten Son to die for you, is there anything He will withhold from you?

Let me take it further again. How do you know that if God closes that door? He's got over here, another door that is exceedingly, abundantly, above and beyond anything you could have ever imagined. Do you know what your only regret will be? Is that you didn't trust God sooner. It's kind of like, oh my goodness. Lord, you're amazing. I know, I'm God. But, Lord, if I'd have known. Well, I tried to tell you. Just trust me. I love you so much. I'm not going to let a hair on your head fall to the ground unless it serves my purpose, and it's for my glory, and you're good. He let way too many hairs on my head fall to the ground, but that's another story. I'm not going to let anything happen to you, and the only way I'll let anything happen to you is if, in the end, it's for your betterment and my glory. Then I'll let it happen.

Yeah, but what about... I think about Peter when Jesus says, Peter, come here. I've got to talk to you about something. What? Well, the other day, Satan came up to me and asked me for permission to sift you as wheat. He did? Yeah. Well, you told him no, right, Lord? No, I told him, yes. Why! Because it's for your good and my glory. Just wait - you will see. Psalm 27:13-14.

I'll try to bring it in for a landing here. It is abundantly clear that the world today is waxing more and more evil than ever before. But trust in the Lord like never before. You'll forgive me if that sounds cliché, and it can. I don't intend for it to sound like that. I know many are trying to warn their loved ones concerning the decision to get vaccinated, and my heart goes out to you. I know it's really hard. It's gut-wrenching, and it's heartbreaking.

Again, you'll forgive me. I know this might sound canned and cliché, but do your best and trust God with the rest. God loves them more than you do, by the way, and that goes for your family as well, particularly so. For those of you that have a prodigal son or a wayward daughter, have you ever thought of it like that? I mean, you love them so much you never knew that you could love so much and have your heart broken so much. But have you ever thought about it like, that God loves them more than you ever could?

This last week my wife shared with me as only a wife can. This profound, and I would even suggest, prophetic word, and it goes like this. Are you aware? Do you care? If so, I'll share. If not, beware. I thought that was pretty good. I said, can I quote you? She said, sure, go ahead. I'll put a copyright on it after you do next week. Let me say that again. Think this through with me. Because here's the problem, right? People aren't aware of this. So, question: Are you aware? [Yes.] Okay, so you're aware. Now the next question is: Do you care? Okay, so if you care, then I'll share. If you don't, then you better beware because it's going down exactly as God said it would. And this is why we do these prophecy updates. This is why we share because we care.

The Gospel of Jesus Christ and we end with a child-like explanation of salvation by way of the ABCs of Salvation. What's the Gospel? The Gospel is the good news. If you're anything like me, and I suspect that you are, we could use some good news right about now, right? The bad news is this is going down. This is getting real. It's happening, and this is how it ends. I think we talked about that a couple weeks ago, maybe three weeks ago? This is how it ends, and we're never going back. That's pretty

bad news. But that readies me and steadies me for the good news, and the good news is that all of this is going down, and when it does - we go up.

That's the good news because the Gospel is this: Jesus Christ came; He was crucified; He was buried; He rose again on the third day, and He's coming back one day when the trumpet sounds and the dead and Christ rise first, and we who are alive and remain will be caught up, raptured up, to meet the Lord in the air. I was just thinking about this last week, and it is kind of in anticipation of a couple of testimonies that I want to share, which are just so moving about how it is all of those of you like me that have had loved ones that went home to be with the Lord.

We often read past it, but the dead in Christ rise first. My daughter, Noelle, is going to have her bodily resurrection first. My mommy, I can't wait. My dad, I hope, I believe by faith. The dead in Christ rise first, they're going to be in the air, and we're going to meet them and the Lord in the air, any time now. Any time now. How about now! Actually, that would be great, wouldn't it? Yes, praise the Lord. I'm going to say it. Yeah, but Pastor, the rapture is not going to happen before the 7-year tribulation. Okay, whatever.

That's why again, it is of paramount importance to know God's Word and not just what you believe but why you believe it. Because it's going to make the difference between being depressed and blessed. I know that's corny, but it's true. If I don't know and believe and understand that the rapture has to happen before the 7-year tribulation. I'm freaking out right now, right? That changes everything. Okay, I feel better now.

The ABCs of Salvation, if you're watching online or maybe you're here today, I make no assumptions, and if you never called upon the name of the Lord, I want to share with you how to be saved. It's so simple. It's child-like simple. There's really nothing you have to do. It's already been done for you. Jesus did it. He paid in full. It is finished. You can't add to it or subtract from it. It's finished.

The A is for: Admit or acknowledge that you sinned, that you're a sinner, that you need the Savior. Romans 3:10 says, "As it is written, there is no one righteous, not even one." Romans 3:23 tells us why. It's because all have sinned and fallen short of the glory of God. We were all born sinners, which is why we must be born-again to enter the Kingdom of Heaven. Romans 6:23 says, "The wages of sin is death." That's the bad news, the death penalty. But here's the good news. The gift of God is eternal life in Christ Jesus, our Lord.

The B is for: Believe in your heart that Jesus Christ is Lord. As Romans 10:9-10 says, "If you believe in your heart that God raised Jesus from the dead, you will be saved. That's the B, and here is the C. It's for: Call upon the name of the Lord. Or as Romans 10:9-10 also says, "If you confess with your mouth, 'Jesus is Lord' and believe in your heart that God raised Him from the dead, you will be saved," and here's why. "For it is with your heart that you believe and are justified, and it is with your mouth that you confess and are saved."

Lastly, Romans 10:13 seals the deal. "All who call upon the name of the Lord will be saved." That simple. If you've never called upon the name of the Lord, I implore you today while it is still day, because today is the day of salvation.

Can I share with you 2 testimonies? Very moving. This first one is from Tony and Amanda Myers. "I have been watching your prophecy updates for 5 years, and my wife has been for quite a bit longer. We have been going to a small country church, "God's Church," for about a year now. You and the Holy Spirit have inspired me to get up in church and speak about salvation many times during this first year. We use the ABCs of Salvation cards in service and to give out. We have had 6 receive salvation this year, and last week we had 16 baptized.

The main reason I am writing to you is that one of those that were baptized last week passed away at their home suddenly 5 days after. You talk about a wake-up call! JD, my wife, myself, and our small

church of 40 people in Corydon, Indiana, are very inspired by how God uses you. We all love watching you be bold weekly. Don't ever stop. Your friends forever." Tony and Amanda Myers. I have no intention of stopping. I mean, like the Lord would let me get away with that anyway, right?

This one is a tissue alert. No, I really mean that. It comes from Brett Atkinson. "Pastor JD, a friend of mine led me to your messages last spring. I'm a contractor in a small town known as Tuscola, Illinois. This past summer, I watched your ABCs of Salvation billboard campaign taking place; I, too, felt our Lord speaking to me and instructing me to pay for an ABCs of Salvation billboard. I was all set to contact a billboard company to put up our ABCs billboard, but I felt God leading me in a different direction. He was telling me He wanted me to share a different message.

For over two months, I prayed, trying to figure out what message God wanted me to share. He was telling me to share a Scripture that provides hope to the confused or fearful people in our fallen world. He led me to Matthew 11:28, "Come to me, Jesus said all you that are weary and burdened, and I will give you rest." Before Thanksgiving, I reached out to an advertising company to inquire about a billboard that came available as you come into our town. They explained that it would take several weeks to get the billboard up as I signed my contract. I never let a single person know I was doing this, not even my wife. God knows what you've done in private.

On December 20th, the most painful tragedy we've ever endured took place. Our beautiful daughter, Keli, died in an automobile accident at the tender age of 26. There is no pain like this. Two days after her death, we had to meet with the local funeral director to plan her arrangements. One of the questions asked was what information we wanted on her memorial cards that they give out at the visitation and funeral. I left these decisions up to my wife. I did not know the decisions she made except for the photo we used and whom I thought should be the pallbearers.

The next day we returned to the funeral home for an immediate family private viewing of our daughter inside her casket. While there, the funeral director brought us the completed memorial card. As I looked it over, tears began to stream down my face. My wife had chosen Matthew 11:28 as the verse she wanted on the card. I asked her how she came up with the specific verse of the 31,000 plus verses in the Bible. She told me that years ago when I struggled with my addictions, this was the verse that she read to help carry her through. Our daughter, Keli, was also dating a young man that has his own personal struggles with alcoholism. My wife said she texted this verse to our daughter on a regular basis.

As we were leaving the funeral home, the billboard company notified me that our billboard was up. I never intended to let anyone know I was the one responsible for it until the miracle that just took place that only God could do. I told my wife I had something to show her. We drove out to the billboard, and both of us were filled with joy as tears rolled down both of our faces. Only a loving and living God could be secretly speaking to both of us as He shared a message of hope with us at critical times in both of our lives. The cross smashing the pitchfork [I like this] into pieces is our construction company's logo, which represents the victory over sin through Jesus Christ.

We laid our precious Keli to rest the day after Christmas. Even though our hearts are broken, we take great comfort in the fact that our baby is now walking on the streets of gold. We will all be rejoicing when we see our loved ones and Jesus Christ on that glorious day. P.S. God has shown us a few signs that our baby is in His good hands. As her body was lowered into her grave, He showed us a cross in the sky - pictured here. God does things like that, you know.

If you'd like to share this message during your live-sermon, I would be delighted. I hope the message may reach someone that is also weary and burdened and needs a rest that only Jesus Christ can provide. Please feel free to list my email as well. We have it in the links below. Maybe there's someone out there that can relate to our story, and I would love to speak with anyone struggling with addictions or the loss of a loved one. Even if my story and God's message reaches only one

person, it was worth it. Our daughter was the most beautiful person I've ever known on the inside and out. She was pure love, and we were so blessed to have had her for 26 amazing years. God bless. Brett Adkinsson.

You never know, do you? You never know. We talk about the rapture, but what if our untimely death precedes the rapture? It can. James said, be very careful when you say we're going to go into such and such a city and do business there and make a profit there. You don't know that. Tomorrow is not guaranteed. You should preface everything with, Lord willing.

One last thing, I want to share this story. I haven't shared it for a while. I think it's apropos if you don't mind. Appreciate your patience. I think this is the Lord. I was very young, in my 20s, single, a relatively new believer, I was very active in my church at the time, and I served, volunteered at a boy's home. This was a home for teenage boys that were foster kids basically, just unwanted, sadly. I took under my wing just a precious 13-year-old black kid. He was so cool. Actually, my daughter's age now that I think of it, 13-years-old So every Sunday after church services, we would go out to this home. We would just encourage him, pray with him, minister to him, bless him, help him, be there for him, love on him.

On this particular day, I felt this really strong urge to ask him if he knew for sure that if he were to die that he would go to be with the Lord. He said I'm not sure. I said you can be sure. You can know that you have eternal life. Do you want me to explain to you how and would you like to pray? He said, yes, sure. So, I shared the Gospel with him, and he accepted Christ that day, and then that week, he drowned. He drowned. I am so glad that I shared the Gospel with him. I want to see him. I want to see him again in heaven. You never know.

Why don't you all stand, and we'll pray? Thank you, Lord. Lord, thank you. Thank you for the Gospel. Thank you for eternal life, the gift of eternal life. Thank you for paying for it in full with your life for us - instead of us. So that you can offer to us this gift that you paid for.

Lord, I pray if there's anyone that's watching this video, it's not by accident that they are and still are even. If they have never surrendered to you, put their trust in you, or called upon you, I pray that today they would make the most important decision of their life for eternal life.

In Jesus' name. Amen.
