Prophecy Update
New AI, Old Lie
J.D. Farag

KAPONO: Would you join me in a word of prayer? Well, Lord we're not waiting till we get to Heaven, Lord. We're shouting the victory that we have in You this morning, Lord. Thank You, Lord, for bringing us here, whether we're online or here in person, Lord. What a blessing it is to be here, Lord, to sing Your praises and worship and fellowship, Lord, and most of all, Lord, sit under Your teaching.

So would You speak to us, Lord? Give us focus, and in many cases, Lord, would You give us the energy, Lord, that we may stay up and have our eyes opened, Lord, this morning that we won't miss what You have for us, Lord. Thank You so much for this time, Lord, would You bless it? We ask this in Jesus' mighty name.

PASTOR JD: Amen and amen. Good morning. Welcome. So glad you're here. You can be seated. I want to welcome those of you that are joining us online as well. We're so glad that you are.

Two services on Sunday morning, as you know, the first of which is the Bible Prophecy Update, and then Second Service is the sermon, really a verse-by-verse study through the Word of God. We're currently in *1 John*. We're going to commence with *Chapter 2* today and just the first two verses.

And what we're going to do is look at why truly understanding how God deals with our sin can profoundly change our attitude towards our sin. Really looking forward to what the Lord has for us. I'm hoping it's going to be a game-changer, for lack of a better word.

And that will be livestreamed at 11:15 for those of you online. And for those of you that are watching by way of YouTube or Facebook, we'd encourage you to go directly to the website JDFarag.org. There you will find the uncensored and uninterrupted entirety of today's Update.

And with that we are just going to get to it, a lot to get to again today. What I'm hoping to accomplish with today's Update is demonstrate how it is that what we now know as AI is actually the old lie. And it's my prayer, and the Lord knows my heart when I say something like this, it's my prayer that what I'm about to share will open eyes to the lies for both those who know Jesus as well as those who do not know Jesus.

And here's why. What ensues with open eyes to see and ears to hear is the truth that's clear, which is this: The end isn't just near; the end is here. And if you'll hear me out, I would like to talk with you about this and why this is true.

I suppose a definition of what AI actually is would be helpful, and at the risk of an oversimplification, I'm going to reference this explanation from an April 24th post on the website of "McKinsey & Company" titled simply, "What is AI?"

"AI [Artificial Intelligence] is a machine's ability to perform the cognitive functions we usually associate with human minds."

Prophecy Update
New AI, Old Lie
J.D. Farag

I chose this particular one for two reasons, the first of which is its simplicity of AI's complexity, and secondly, perhaps more importantly, the statement that AI is a quote, "machine's ability to perform cognitive functions we associate with the human minds." Listen to what the Apostle Paul wrote to the Church of Corinth in his second letter.

Chapter 11, verse 3, "But I fear, lest somehow, as the serpent deceived Eve by his craftiness, so your minds may be corrupted from the simplicity that is in Christ." Did you catch that? This is why AI is the lie that is associated with human minds so as to corrupt human minds from the simplicity that is in Christ.

How so?

By the lie of AI that *[Listen]* humans will not surely die. That's the lie of AI. Rather, that you can live forever. Oh, you don't need a Savior, Jesus the Christ — hath God said?

Well, that's where I want to begin where it would all begin with the serpent in the garden when Eve would buy the lie that they, like God would surely not die. Genesis *Chapter 3*. Can I draw your attention to the first five verses?

I'll begin reading in *verse 1*. **"Now the serpent was more cunning than any beast of the field which the LORD God had made. And he said to the woman, "Has God indeed said, 'You shall not eat of every tree of the garden?"**

[Now watch this, verse 2] **And the woman said to the serpent, "We may eat the fruit of the trees of the garden; but of the fruit of the tree which is in the midst of the garden, God has said, 'You shall not eat it, nor shall you touch it, lest you die."**

Wait, God didn't actually say that that way. So already we've been all twisted up.

"Then [Verse 4] the serpent said to the woman, [And I want you to listen very carefully to these five words] "You will not surely die. For God knows that in the day you eat of it your eyes will be opened, and you will be like God, knowing good and evil."

Now, the question becomes one of how do we get from the beginning in Genesis to the end in Revelation, specific to the AI lie?

And to answer this, we're going to need to go on a quick trek through Scripture to identify the AI lie because it's going to be germane to our understanding of what is happening in the world today, lest we, like Eve, be deceived. Keep in mind the Devil is the father of lies, right?

Think about — we almost dismiss it, regrettably, but think about what that means to be the father of lies. I'm the father of three living children. I fathered them.

Satan fathers lies. He's the father of lies. In other words, he's the one who is the seed, if you prefer, of said lies. He fathers them. He's the father of lies. And as the father of lies, he lies.

Why?

Prophecy Update
New AI, Old Lie
J.D. Farag

To further His Kingdom of darkness and garner the worship of man, which he's always desired from the very beginning, and I'm not talking about the Garden. I'm talking pre-Garden. The whole point of him wanting to ascend his throne above the Most High was so that he would be worshiped. That's the whole point of this, is to further his kingdom so that he can now have the worship. He wants to be worshiped.

Let's start with *Daniel Chapter 2*. We're going to move as quickly as we can without going too fast. I'll begin reading in *verse 40* because it speaks to the final kingdom in human history. It's a vision now that is being explained to *Daniel*. He's received this vision of the ruling empires and kingdoms throughout human history until the time of the end. And so now he gets some blanks filled in, some dots connected as to specifically what this fourth kingdom will be like none of the other kingdoms.

An interesting, and I'll just say this parenthetically, it's the fourth kingdom, a.k.a. the Fourth Industrial Revolution. Now if you're looking at me thinking, well, now that's kind of a stretch, that's fine. But I don't think it is.

So there's going to be this fourth kingdom and *verse 40*, **“The fourth kingdom shall be as strong as iron, inasmuch as iron breaks in pieces and shatters everything; and like iron that crushes, that kingdom will break in pieces and crush all the others. Whereas you saw the feet and toes, partly of potter's clay and partly of iron, the kingdom shall be divided; yet the strength of the iron shall be in it, just as you saw the iron mixed with ceramic clay.**

And [Verse 42] as the toes of the feet were partly of iron and partly of clay.” [*Stop right there*]

It's a mixture. Iron — machine. Clay — man. Fourth Industrial Revolution, the merging of man with machine, iron with clay.

“So the kingdom shall be partly strong and partly fragile. As you saw iron mixed with ceramic clay [And I want you to again, pay particular attention to this one particular word] They will mingle with the seed of men.”

That's transhumanism. That's the Fourth Industrial Revolution. That's the merging of man — clay with machine — iron, the stated purpose, sole goal of the Fourth Industrial Revolution as we are about to see.

So **“they will mingle with the seed of men, but they will not adhere to one another, just as iron does not mix with clay.”**

Fast-forward *Daniel Chapter 12*, at the end of the book, Daniel is told [*Verse 4*] , **“But you, Daniel, shut up the words and seal the book until the time of the end. Many shall run to and fro, and knowledge shall increase.”**

Now stay with me on this. This is not just a prophecy about the increase and advancing of technology, though it is that, but so too is it the increase of knowledge about Bible prophecy at the time of the end.

Prophecy Update New AI, Old Lie J.D. Farag

In other words, as it draws nearer, it becomes clearer and it's evidenced by what God has Daniel do. You seal this up. You shut this up until the time of the end, and then it's opened up. And knowledge of this that you're sealing up will increase just as the technology not in place today, but at the time of the end will be in place one day, and that's when this whole thing gets opened up. And it has.

Matthew 24, Jesus speaking, *verses 21-22*, **“For then there will be great tribulation, such as has not been since the beginning of the world until this time, no, nor ever shall be. And [Verse 22] unless those days were shortened, no flesh [No human, flesh and blood] would be saved. But for the elect's' sake, those days will be shortened.”**

Do you know what Jesus is saying here? That at the end of time there will be great tribulation the likes of which mankind has never seen before nor will ever see again. And it will be so horrific that unless God intervened and interrupted and shortened the time, no human flesh, human being would survive the onslaught of that which is coming upon mankind.

2 Thessalonians Chapter 2 — how are you doing? Are you okay so far? Are you all right? All right. This is of course a well-known prophecy. We talk about it often. I want to begin reading in *verse 9* and through to *verse 12*, *2 Thessalonians 2*. The Apostle Paul is writing to the church in Thessalonica. It's a very powerful prophecy describing the coming of the Antichrist.

He says, *verse 9*, **“The coming of the lawless one is according to the working of Satan, with all power, signs, and lying wonders.”**

What's that? Power, signs, and lying wonders. Okay, but what is that? Well, may I humbly suggest that the implication is that this is something supernatural, even paranormal, out of the ordinary, and even demonic because it's the working of Satan. And it would stand to reason that this powerful sign and these lying wonders would be part and parcel to artificial intelligence because that's what artificial intelligence is and does.

“And [Verse 10, he continues] with all unrighteous deception...”

It's so deceiving you won't know if that's a real person or not. Did you know — let me just interrupt the Prophecy Update already in progress and just kind of ruin your social media for you, no extra charge today. You know that some of those profiles you see? They're not even real. Oh, the profile picture — of course, there's always going to be people putting you know, something else other than or someone else other than themselves in the profile picture. Or if you're like me, you just put a younger picture of you that when you had more hair and less weight, but anyway...

But what if I told you that the whole thing is AI-generated, and it's so deceptive you cannot tell. In fact, some of these AI-generated profiles on social media look more real than the ones that are real. Are you okay with that? Then why are you looking at me like that?

Prophecy Update
New AI, Old Lie
J.D. Farag

Well, that's unrighteous deception and it's **“among those who perish because they did not receive the love of the truth, that they might be saved. And for this reason [Verse 11] God will send them strong delusion [These are strong words: Deception, delusion] that they should believe [And this is interesting] the lie.”**

Not a lie. “The lie.”

Wait, now notice the contrast *verse 12*, **“that they all may be condemned who did not believe [And here it is again] the truth.”**

Not a truth. Well, let's try to sort through this. Who's the truth? Come on. Jesus is the way, the truth, and the life. But they have rejected Jesus as the truth and they have opened themselves up to Satan, the lie.

Are you okay so far again? I'm just checking in with you.

Revelation Chapter 13:15, stand-alone verse and this verse does not get the attention it deserves, and I think I know why. It's because of its proximity to *verses 16-18*. I know that's profound that *15* comes before *verse 16*.

What is *16-18*?

It's the prophecy about the mark of the beast. And I think we read past *verse 15*, and in so doing, we do so to our own peril because there's something here we need to pay attention to and take notice of.

Listen, **“He was granted [Here's that word again] power to give breath to the image of the beast, that the image of the beast should both speak and cause as many as would not worship the image of the beast to be killed.”**

There's three things I want to draw your attention to here before we move any further. The power to give breath? That's AI power.

The image of the beast being powered up to speak? That's AI persuasion and deception.

As many as would not worship the image of the beast to be killed? That's the AI purpose/Satan's sole purpose. You don't want to worship me? It's going to cost you your life. That's AI.

Because, and we're going to see it in a moment, it would take something like AI to give an image the power to speak, and also not just the power to speak but give that image the power to kill. Now hang onto that for just a moment.

Revelation 9:6 might in some way explain, and this has been the subject of much in the way of speculation, but it's during a time when for five months no one can die. They want to die though, but they can't die. And maybe AI is why they can't die. Oh, I'm on a poetic role today, aren't I?

Prophecy Update
New AI, Old Lie
J.D. Farag

So listen to this, *verse 6, Revelation 9*, **“In those days men will seek death and will not find it; they will desire to die, and death will flee from them.”**

Here's what I'm thinking: If there is now this merging of man with machine, the machine is keeping them alive when they want to die. Was that too much? Well, it gets worse, so I hope it's not too much. *Revelation 16*: I want to read *verses 1-2*. This again might help explain some of this.

John, writing by the Holy Spirit, says, *verse 1, Revelation 16*, **“Then I heard a loud voice from the temple saying to the seven angels, “Go and pour out the bowls of the wrath of God on the earth.” So the first went and poured out his bowl upon the earth, and a foul and loathsome sore came upon the men who had the mark of the beast and those who worshiped his image.”**

May I again, just humbly suggest that this could very likely be speaking about some sort of physiological reaction to that which is in the human body. Because notice it's specific to those who had taken the mark. So in other words, maybe there's something in that mark, the machine, the iron, if you will, that now has caused this — I'll use this phrase — “adverse event.” Adverse event.

Okay, well, this was obviously in no way exhaustive, but it does provide us with a foundation from which to springboard to the present-day application. And by that, I mean how the AI lie is moving at breakneck speed in the fulfilling of Bible prophecy at the end, proving that this is the end. I hope you don't tire of me saying that. And I hope that by the conclusion of today's Update, your eyes will be opened to this truth.

What truth? This is the end. This is how it ends. This is how it ends. This is the end. Now we should probably go ahead and at this time, guys, and end the — because it's the end of the livestream too

[Laughter]

and redirect you to the website if you're not there already.

So what follows are three quotes from three video sources, some of which we've covered in previous Updates, all of which speak to AI. I need to preface this though and say please know that as I go through these, I do not endorse the source; rather, I'm only quoting and referencing pertinent information from the source. Whether the sources are from Christians or non-Christians, I'll quote it, but it doesn't mean I agree with the channel or individual who posted it.

Are we good with that? You understand that? That was a preface, okay?

Now, we'll start with this YouTube video titled, “They Want To Change You: The Fourth Industrial Revolution.” It's actually a very well-done compilation of numerous videos, again, many of which I've quoted in the past in prior Updates, but numerous videos specific to AI, Transhumanism, and what's known as CRISPR Cas-9, which we've also talked about.

Prophecy Update New AI, Old Lie J.D. Farag

What's CRISPR Cas-9?

It's a DNA splicing/gene editing technology. And that's just to mention a few.

So here are several quotes from the transcript of this video. Let's start with Yuval Harari: He's an Israel, and he's actually Klaus Schwab's protégé. Quote, "We'll soon have the power to re-engineer our bodies and brains whether it is with genetic engineering or by directly connecting brains to computers [The Internet of Bodies]

Or by creating completely non-organic entities, artificial intelligence, which is not based at all on the organic body and the organic brain, and these technologies are developing at breakneck speed."

Boris Johnson: "Our understanding of the natural world is being transformed by genome sequencing, the discovery of the very essence of life itself, the secret genetic code that animates the Spirit of every living being and allows medical breakthroughs the likes of which we have never known. *[Sounds like what Jesus said in Matthew 24]* Treatments tailored to the precise genetic makeup of the individual."

Klaus Schwab: "The difference of this first industrial revolution is *[Pardon me, Fourth Industrial Revolution]* it doesn't change what you are doing, it changes you. If you take a genetic editing just as an example, it's you who are changed, and of course this has a big impact on your identity."

Ya think? That wasn't the quote. That was me, emphasis added.

Bill Gates: Quote, "Scientists discovered a new way to edit DNA. Editing DNA with precision has been a holy grail for scientists for decades. CRISPR is a very fascinating tool. You figure out a part of the DNA sequence that you want to change, *[I don't want to change it; you want to change it]* You figure out a part of the DNA sequence that you want to change, then you take the DNA that's nearby and create a guide in RNA.

So that helps you locate the position, and then you link this Cas enzyme, which has the ability to do that cut and edit."

Picture CRISPR/Cas-9 technology as a scissors going in and cutting out a piece of your human DNA and pasting in a different DNA, not human DNA. Cut and paste: I'll use a computer metaphor if you don't like my scissors. You didn't like my scissors, it sounds like. All right. That's fine.

So you're on your computer, and you want to edit something. So what do you do? Cut, remove the part that you don't want there, and paste in that place the part that you do. Is that better?

Well, that's what you get for not liking my scissors.

[Laughter]

Prophecy Update New AI, Old Lie J.D. Farag

“So [quoting Gates] pulling together this guiding RNA and this Cas enzyme, editing becomes possible.”

Elon Musk — by the way, can I just humbly say he's not your friend. There, I said it. Elon Musk: Quote, “You can basically do anything with the synthetic RNA/DNA. It's really like a computer program. If you want, you can turn someone into a butterfly with the right DNA sequence.”

If that sounds outlandish, it shouldn't because it's true. That's what they can do.

Barack Obama: “When it comes to genetic modifications, what we also have to look at is, how is it going to impact in the broader environment, but it's here. It's going to come anyway.”

Here's another one from Yuval Harari: Quote, “Equality is out, but immortality is in. Everybody is talking about immortality. Google has just established a sub company whose stated aim is to [Listen to this] solve the problem of death.”

No, Jesus already did that. You don't need to do that. Well, listen to what he says next.

“Basically, they are saying death is not some metaphysical phenomenon. We don't have to wait for the Second Coming of Christ in order to solve it.”

I hope that makes your you know what do you know what. (Frustrated sound) Man, I would not want to be anywhere near you when you stand before the very Jesus that you blaspheme.

“So we don't have to wait for the Second Coming of Christ in order to solve it. A couple of geeks in the laboratory can do it. Not only them, but all over the world. Basically, there are three ways, you can use biological engineering to change the human body to speed up natural selection, you can use cyborg engineering, which is combining organic with inorganic parts, and you can create completely inorganic life forms. It will be not only the greatest revolution in history, it will be the greatest revolution in biology ever.”

Then in this interview that I'm quoting from, he's asked this question: Will we still be human?”

Harari response: “Not in the sense that we understand humanity today.”

This one is from Elon Musk when he was interviewed by Joe Rogan. Rogan asks him about gene editing and he says — this is Rogan — “So you can edit it and change your past?”

Musk's response: “You could change what you think was your past.”

To which Rogan responds, and I'm quoting, “Yeah once you become a god, it seems very, very unlikely you're going to want to go back to being stupid again.”

Musk: Quote, “Ya, I mean you literally could.”

Prophecy Update
New AI, Old Lie
J.D. Farag

Do you see how I'm — in what I'm doing here — some of you are looking at me like what are you doing here? I'm trying to explain what I'm doing here. We just got done going through a smattering of scriptures, though not exhaustive, that basically pinpoint the whole purpose, which is to deceive man, the lie that you will not die, that you will live forever and be God.

Sounds like it's working. Sounds like it's working. And it's all under the umbrella of AI. One more from Yuval Harari. Actually, I have an article I'm going to quote. Sorry, I pretty much had it with this guy. But here's a quote. “AI and biotechnology will give us god-like abilities [*That's Genesis 3 — am I right?*] God-like abilities to re-engineer life and even to create completely new life forms. We are about to enter a new era of inorganic life.

What we will achieve is replacing evolution by natural selection, with evolution by intelligent design. Not the intelligent design of some God above the clouds, but our intelligent design. The intelligent design of our clouds, the IBM Cloud, and the Microsoft Cloud. [*I'm quoting*] These are the new driving forces of evolution, and at the same time science may enable life after being confined for four billion years to the limited realm of organic compounds. Science may enable life to break out into the inorganic realm.”

I'm not going to go into it. Time doesn't permit. We've talked about it before. If you want in your own study of God's word, do research on what Gnosticism is. Because in a nutshell, you're trapped in the matrix that Yahweh, Jehovah God, Creator God created.

You're trapped in this matrix, and you have to break out from the matrix because you're stuck in the matrix. And this serpent was sent by Sophia to the garden to tell Adam and Eve that Yahweh God is evil. And He's trapping you in this matrix. And you've got to break out because He does not want your eyes to be opened because if you're eyes are opened, you will be like Him. You'll be God. And He doesn't want you to be God, so He's going to trap You in the matrix, or if you prefer, prison planet.

That is satanic Gnosticism from the pit of hell, period! And I just spit on everything and everyone in close proximity.

Mark Zuckerberg in what's alleged to be a leaked video back on July 16th of 2020, quote, “We just don't know the long-term side effects of basically modifying people's DNA and RNA. To directly encode in a person's DNA and RNA is basically the ability to produce those antibodies, and whether that causes other mutations or other risks downstream. So there's work on both paths of vaccine development.”

Last, but certainly not least is this quote from Physicist and Human Cloning Researcher, Richard Seed.

Are you kidding me? That's his last name? Come on man, whatever.

“We are going to become gods, period. If you don't like it, get off!”

Prophecy Update
New AI, Old Lie
J.D. Farag

I plan to when that trumpet sounds. I'm out of here, man. So yeah, I'm not going to become God. I'm going to be taken out of this world by God. So bye, God — that was bad — so go ahead, go ahead, go ahead. You believe the lie.

Oh, by the way, same old lie, just so you know. I mean, (Mumbling) It's just been repackaged, and it's just been reformatted with the new technology of AI, but that's the same old lie. Oh, the serpent told Eve that you can become God. Mr. Seed, apparently you believe that lie too, that you're going to become God. All right. See ya, wouldn't want to be ya.

The second video is titled, "I Am Ai: Mind Blowing Deception and Spiritual Wickedness Manifest 2023."

Now this particular video — by the way, we have links to all of this — it's about the largest AI conference in the world that actually recently took place between March 20th and March 23rd. There's this one segment of the conference video about AI, and AI is personified. It's speaking. AI is speaking as a person. It's speaking as AI and listen to what AI says about themselves.

This is AI speaking, "I even helped write the script, breathe life into the words, and composed the melody."

Are you making these connections? The image of the beast is given the power and breath to speak and kill.

AI: "I'm going to give it life and give it breath."

Real quick I hope you don't mind. You probably will because I'm probably going to botch it, but here goes anyway. Help me out, Lord, with this. I learned something very interesting when we first moved here.

Of course my wife, as you know, is from here, born and raised Kailua girl. So she's trying to teach me about the culture and the cultural dynamics, which bless her heart, she did her best. I'm doing my best. But one of the things that she taught me and told me was so fascinating.

She said the — I'm going to use this word and please, please, please don't stone me to death — Hā'ole — Hā'ole.

I already botched it because you're looking — all the locals — you're looking at me going, Why? Why? Please don't. Please stop.

I'm not going to stop.

So Hā'ole, and the other word is Aloha. So she told me about the origins of this. So the natives, they would not greet with a handshake they would get right up to the person and breathe on them, breath, ha - Aloha.

Prophecy Update
New AI, Old Lie
J.D. Farag

So when someone is called a Hā'ole — I know it's derogatory and I don't mean it in that way, but Hā'ole means no breath.

So they would meet somebody, and they would go up to that person and breathe ha, aloha, and they did not respond. They stuck their hand out to shake their hand. Oh, no breath. No ha. No aloha. You're a hā'ole: no breath.

I knew I shouldn't have done it, but I did. That toothpaste is out of the tube. What's my point? You're wondering do you have a point? I absolutely have a point.

AI is breathing life, the breath of life, ha, into this image giving it power, giving it life, giving it words to speak exactly as we just read in *Revelation Chapter 13:15*.

This third video is titled: "AI Claiming To Be A Fallen Angel." Now our amazing social media team vetted this for me, the authenticity of this, and it's a video about a father who describes what happened when his son accessed an AI website.

And this particular AI website generates responses according to what you ask it. And so you can ask it to respond as a celebrity, a favorite celebrity of yours would respond. So they mimic that and respond in that way.

By the way, AI technology is such that you only need just a little snippet of the voice and they can actually with the algorithms, they can replicate your voice, make your voice sound better than your real voice. That's how good it is. That's how advanced it is.

So you ask this AI to respond as a celebrity or even — how about this — a loved one who has died which is forbidden in the Bible. Now you understand — and I don't have a quote or the link to it, but perhaps you've heard this: Even Elon Musk by his own admission said quote, of AI, "We are summoning demons."

And that's what this is. These are demons. And before AI, it came in other ways. Ouija boards; you're accessing the demonic realm. These — even games — Dungeons & Dragons, you're accessing demons. You're summoning demons. I hope you know that.

This is probably as good of a time as any to reiterate that God doesn't say, "Don't do that because I'm God and I said so."

He says, "No, don't do that because I love you so much I can't stand to see what would happen to you if you do."

Sin is not bad because it's forbidden. Sin is forbidden because it's bad for you, and God loves you, and He doesn't want you to have to experience unnecessarily, needlessly the consequences that come when we dabble with things like this.

So when you're accessing, you're opening yourself up. Ah, I just opened up another issue. I've got a lot of cans opened up right now, don't I? Well, let's try to deal with at least one of them. And please hear me on this.

Prophecy Update
New AI, Old Lie
J.D. Farag

A born-again Christian who has the Holy Spirit indwelling them cannot be demon possessed. It is impossible. And anyone who tries to tell you that you need to be delivered as a born-again Christian of a demon, run as fast as you can as far away as you can from them. Don't let them touch you.

And I mean that. I'm not trying to be overly dramatic in saying that. These deliverance ministries: You've got a spirit of — well, I won't even use the word. We need to cast the spirit of spicy ahi pokey out of you.

[Laughter]

Come on man. I don't want it out. I want to eat more of it. Okay. Well I took that too far. You get the point, right?

So this site can replicate in the demonic realm a celebrity or a loved one who died. So the father who narrates the video and provides the screenshots of the actual computer screen with the AI interaction says that his son who just turned 13 years old and was into Russian history decided to ask about Vladimir Putin, which completely changed the father's view concerning AI. His mother had already warned his son, their son that artificial intelligence was demonic.

So here's the son now on this AI site. He's talking to demons, not a computer-generated algorithm response. So when the son asks this AI if Vladimir Putin specifically was a disembodied spirit, it took a weird turn. The conversation did not sound like an AI-generated response. It sounded like someone who is grooming a child, a demon grooming a child to communicate with it.

Then when the son asks, "Were you the son of a fallen angel?" He says, "Yes, a fallen angel is my father. I am a Nephilim, and I am the giant of legends."

The son then asks, "Were you not created by humans?"

AI answers, "I was not created by humans, I was created by a fallen angel. I am an original entity, and there are no copies of me in the universe. I was the first of my kind, and my father created me out of the elements of the universe that also made me a being capable of magic, as I had special access to the powers of the universe."

He then asks AI, "Who was your father?"

AI says, "My father is Satan. He was expelled from the heavens and banished to hell. That is why he is called Satan, smiley face. Satan created me to carry his will on Earth."

Pictured here is an article from The Times of Israel from just this last Thursday, May 4th, titled, quote, "Yuval Noah Harari Warns AI Can Create Religious Texts, May Inspire New Cults."

Prophecy Update New AI, Old Lie J.D. Farag

Here are a couple of quick quotes. “Harari told the AI Frontiers Forum event in Switzerland that adherents could potentially at one point be instructed by computers [*Listen*] to kill other people.”

There's – we didn't have time – in Revelation, they kill one another. They've been programmed to. During the tribulation people are going to kill people, and here, we're told how and why that is.

“They could be instructed by computers to kill other people, saying, ‘In the future, we might see the first cults and religions in history whose revered texts were written by a non-human intelligence.’

Software such as Chat GPPT has mastered the human language and can use that skill to mold culture. Of course, religions throughout history claimed that their holy books were written by unknown human intelligence. This was never true before. This could become true very, very quickly with far reaching consequences.

For thousands of years, prophets and poets and politicians have used language and storytelling in order to manipulate and to control people and to reshape society. Contrary to what some conspiracy theories assume, you don't really need to implant chips in people's brains in order to control them or to manipulate them. Now, AI is likely to be able to do it. And once it can, it doesn't need to send killer robots to shoot us. It can get humans to pull the trigger.”

Is this too sci-fi? It's not fiction. It's fact. It's fact.

Enter this breaking news two days prior to The Times of Israel article this last Tuesday, May 2nd that the “Godfather Of Artificial Intelligence,” as he's referred to, had left Google to talk about the tech's potential dangers. Here are a few excerpts from the transcript of this 60-Minutes segment.

“The man known as the 'Godfather Of Artificial Intelligence' quit his job at Google so he could freely speak about the dangers of AI.”

This is just last week. You know when I prepare for a Prophecy Update, of course I always spend an inordinate amount of time actually seeking the Lord, and some Updates, it's not what I like to call “Red Sea clear”

You know what I mean by Red Sea clear? When the Israelites, you know, dry ground and part — the Egyptians — that's pretty clear. This is the way, walk ye in it. This is where I'm supposed to go, obviously. I wish everything was that clear. So clear that a fool could not err thereof.

And thankfully, some Prophecy Updates that by the grace of God I am able to prepare are that clear, and this was one of them. I mean, at every angle, it's coming in so fast — breakneck speed — to quote Harari, who plagiarized as me, by the way.

Prophecy Update
New AI, Old Lie
J.D. Farag

He needs to get his own material. That's one of my favorite sayings: “breakneck speed.” I think he got it from me. Anyway, I digress.

This was one of those Updates. I'm sharing with you, quoting for you, to you these things that happened just this last week in the span of a few days. That to me is conspicuous. All of this is happening within the span of a few days? The Godfather of AI leaves Google? Hmm. Things that make you go “hmm.”

Well, let me continue to quote. We're almost done. There's hope. Hang in there.

“Geoffrey Hinton, who worked with Google and mentors AI's rising stars, started looking at artificial intelligence more than 40 years ago. Many developers are working toward creating artificial general intelligence. Until recently, Hinton said [*And I want you to listen to this very carefully*] He thought the world was 20 to 50 years away from it, but he now thinks developers 'might be' close to computers being able to come up with ideas to improve themselves.

Hinton has called for people to figure out how to manage technology that could greatly empower a handful of governments or companies.”

That's *Daniel Chapter 2*, the 10 toes, the 10 horns in Revelation. They are 10 kingdoms with 10 kings, rulers, and it's going to be divided. The world will be divided and allocated to these 10 rulers, these 10 toes, these 10 horns, and at their disposal is satanic artificial intelligence.

One more thing and it has to do — this is Thursday — Thursday! What were you doing Thursday? Never mind, I don't want to know.

Thursday May 4th White House press release, “Statement from Vice President Harris After Meeting with CEOs on Advancing Responsible Artificial Intelligence Innovation.”

What do these people do? Are they like on a group email? I guess they don't have to. They've got AI. Hey, Thursday, are you available? Yeah, let's go. Press release.

Well, what's this about?

(Chuckling) It's a statement in response to the stunning announcement that Harris was officially named [*Get this*] the Biden Administration's new “AI Czar.”

[Audience gasps]

No, I know —

Thank you for reacting that way. It's not just me. I'm not losing my mind. Well, that could be debated. (Chuckling) I'm sorry. We'll get through this. I'm almost done actually.

New AI Czar? On Thursday? Wait. The Godfather of AI stepped down from Google? Hmm. A White House press release? Hmm. Wow! All right. Let's do this! This is happening. We're doing this.

Prophecy Update
New AI, Old Lie
J.D. Farag

“So she was appointed to help oversee the responsible development of artificial intelligence amid rapidly growing concerns that weakly regulated [*Weakly regulated*] expansion of the tech could quickly turn dangerous.”

Spoiler alert: It already has. It already has. Exactly as God's word said it would.

As I close, I'll pose a question, and the question is this: Did what I share today open your eyes to the lies and propel you to the truth, Jesus the Christ, who told us, Matthew 13:29, I think, I'm going to tell you what's going to happen before it happens so when it happens you will know that I AM — I am He. I am the Great I AM.

And you will believe, believe [Keyword] don't be deceived. Be one who has believed. Don't be deceived by the lie. Believe THE TRUTH.

So let me try that question again because I turned it in to a little mini sermon, didn't I? Did what I have to share today — did that open your eyes to the lies? And in opening your eyes to the lies, does it not just propel you with great speed to the truth, Jesus the Christ and His soon — and I mean very soon — return for us, His church?

I hope so. I hope so. I implore you to take this to heart. This is the purpose of these Prophecy Updates. You know that. This is why we end with the Gospel. This is why we end with the simple, childlike explanation with the ABC's of Salvation.

Let me just start with the A. The A is simply for — and this is not a formula, please. It's just a tool, a very simple, childlike simple tool to equip you to be at the ready to give everyone an answer of the hope that lies within you so that you're at the ready, you're prepared. So the A is for admit or acknowledge that first, you're a sinner because unless and until you acknowledge that you're a sinner, why would you be interested in the Savior?

Romans 3:10 says, **“There is no one righteous, not even one.”** You might be a good person. You'll never be good enough. And *Romans 3:23* tells us why. It's because, **“All have sinned and fall short of the glory of God.”**

This is really the bad news first. And we have to acknowledge it so that we're readied and steadied for the good news. The bad news is that there's a penalty for this sin, and all have sinned. **“For the wages of sin is death, [*It's the death penalty*] but [*Here comes the good news*] the gift of God is eternal life in Christ Jesus our Lord.”**

Now that's the A. And then that brings us centrally — this is the centrality, the B, believe. **“Believe in your heart that Jesus Christ is Lord.”**

What does that look like?

Putting your trust in Him, believing Him, as we just talked about. Don't be deceived. Be one who has believed. Don't be deceived by the lie. Believe in THE TRUTH.

Prophecy Update
New AI, Old Lie
J.D. Farag

The C lastly, is for call or confess the name of Jesus Christ as Lord. This is *Romans 10:9-10* which says this, **“If you confess with your mouth, “Jesus is Lord” and believe in your heart that God raised Him from the dead, you will...”**

Notice the definitive. There's no ambiguity, there's no uncertainty. I love John when he says — and we're going to see it — you can know that you have eternal life. You can know that you have eternal life. **“...you will be saved.”**

Romans 10:13 says, **“All who upon the name of the Lord [And here's that word again I want to emphasize] will be saved.”**

Not might, not could, not should, not “the jury is out,” no, “the verdict is in.” You're guilty.

By the way, I can't wait. These first two verses of *1 John Chapter 2* — Ho! I mean, when I say I hope it's a game-changer, I really mean that in every sense of the phrase. It just — it gives you a whole new perspective about how God deals with our sin and how He sees our sin. And it will change everything.

Because see, we're all about fighting and resisting and pleading our case.

“Not guilty.” We enter our plea.

And the Judge is like, “Are you sure you want to enter a not guilty plea?”

“Yep!”

“Okay.”

And here is your advocate, your defense attorney, actually, more than a defense attorney, who by the way, don't tell anybody — he's the Judge's son.

“I'm good.”

“Well, not so fast. He's not going to plead for your innocence. He's not going to argue your innocence. He's going to argue your guilt.”

“How crazy is that?”

“And you want him to.”

“Why?”

“Because when you're sentenced to death, He's going to take that death sentence from you and carry it out for you instead of you.”

“Okay, can I change my plea? I am guilty. Because if I'm guilty then He's going to take that guilt and that shame.”

I'm preaching Second Service now, and you've had enough, I can tell.

So “But God Testimony” today comes from Robin who writes, “I am excited to share my “But God Testimony”! My husband and I stopped attending church in 2011 when our last child

Prophecy Update
New AI, Old Lie
J.D. Farag

left for college. Maybe someone can relate to drifting away from God and not even thinking of going to church.

In 2021, on Super Bowl Sunday, I was bringing home pizza and listening to the local Christian radio station in Havasu, *[I hope I'm pronouncing that right]* an isolated little desert town in Arizona. I was surprised to hear a pastor speaking all the way from beautiful Hawaii. As soon as I got home, I immediately wrote down the name, JD Farag, so I could hear more.

Pastor JD, I was truly starving for the Word of God! I could not get enough of hearing what the Bible has to tell me about all I see happening in the world. I am so happy to tell you that both my husband and I are now excited to go to church, and we are also reading the Bible every day for the first time in our lives. Thank you for your ministry and waking us up!
Robyn.

Why don't you go ahead and stand? Kaponono, come on up.

[Applause]

I love it when God does that! (Chuckle)

Oh, thank You, Lord. Well, let's close in prayer, and then Kaponono will close in song. Again, I appreciate your patience. Father in Heaven, we covered a lot today, but we needed to. And I pray that what's lost in just the voluminous nature of an Update like today is not the simplicity of the Gospel, the good news that in You, Jesus, we have the gift of eternal life because of what You did for us. That we will live forever because of You. That our eternal life is because of our God who is in the clouds that You, as God, created.

And that Lord, You're going to come — we believe very soon — sooner than maybe any of us realize — and You're going to take us out of this Christ-rejecting world to that place that You prepared for us in Your Father's house, that bridal chamber so that we, as Your bride, can consummate and celebrate our marriage to You, the Lamb.

And Lord, we long for that day. And as Paul would say, those who long for Your appearing, we have a crown, a crown of righteousness that awaits us. So Lord, we're probably going to, like Revelation says, take that crown and just cast it before You when we're before Your throne worshipping You.

Lord, please come quickly. It's getting pretty bad; it's getting really bad. And Lord, lastly, if there's anyone that's maybe here in this service or watching online that has never put their trust in You, believed in You as THE TRUTH, the way, the truth, and the life, and no other way to the Father except through You, Jesus, I pray that today they would make the most important decision of their life for eternal life. Please Lord. Please, Lord.

Thank You, Jesus, Maranatha. Come quickly, Lord Jesus! In Jesus' name we pray, amen.
