# **Bible Prophecy Update –January 24<sup>th</sup>, 2021**

## ***Decision Time: Part 2***

**JD Farag**

Alright, good morning, and welcome to our weekly Bible Prophecy Update. We're going to get right to it, and here's why. This last week I sought the Lord, spent some time with the Lord, and sensed that the Lord would have me to follow-up on the January 10th Prophecy Update titled "Decision Time."

Thankfully, by God's grace, our amazing team, and they are amazing, has secured the ability to simultaneously live stream on our new website at [JDFarag.org](http://JDFarag.org). We've provided that link below for this YouTube video, and also, we are live streaming on Facebook as well.

Now, I want to let you know that we're going to begin the update today and moving forward, and this only applies to the update by way of an introduction here on YouTube and Facebook. After that, we're going to end the live stream on both YouTube and Facebook and continue seamlessly at [jdfarag.org](http://jdfarag.org) as we do a deep dive into this very serious issue, and it is very serious.

This is no game. This is deadly serious, literally. That's not hyperbole. What we want to do is encourage you, I'm talking about those online, to make [jdfarag.org](http://jdfarag.org) your main "go-to" resource for all of our videos in place of YouTube.

Now, please know that we will continue to live stream all of our videos on YouTube every week at the same regularly scheduled times. However, for the prophecy update only, it will be an introduction.

Doing it this way will serve as a reminder to our 1.3 million monthly viewers to watch the full uncensored update at [jdfarag.org](http://jdfarag.org). It's our hope that instead of YouTube, you will remember to go directly to [jdfarag.org](http://jdfarag.org) moving forward. However, we know this might take some time, which is why we're going to continue the updates in this way.

Again, we very much appreciate your patience with us and, more importantly, your prayers for us. Specifically, as we implement strategic updates to our website in response to the rampant censorship, including, and this is really important. We really need prayer concerning the decisions we make on the partners we select to work with. Lord willing, we intend to remain on YouTube and other social media platforms for as long as we can reach as many as we can.

However, we will never cave or compromise the truth of our content, and if our accounts are terminated - so be it. We're ready for it.

By way of introduction, I want to be very clear that what I'm going to talk about today is only for those who have ears to hear. Let me explain. If you're looking for answers, you have ears to hear. Praise the Lord.

If you're looking for an argument? Okay, Lord, I got it. I'm trying to be very loving and pastoral here. If you're looking for an argument, you don't have ears to hear.

There seems to be much in the way of consternation, contention, and confusion - all of which comes from none other than the Devil himself, right? And do you know what's sad? The Devil has in large measure succeeded with Christians, by the way, as the author of confusion, the accuser of the brethren, and the father of lies.

Actually, as the Lord would have it again this week, our verse-by-verse study, the 2nd service through 2 Timothy, we're going to complete, Lord willing, chapter 3 beginning in verse 14, and we'll make it through to verse 17. It's about this very thing.

I would encourage you, online, to again join us, preferably at [jdfarag.org](http://jdfarag.org). It will be live-streamed as well in its entirety, by the way, on all platforms. That's at 11:15 a.m. Hawaii time for a teaching titled "Surviving Confusing Times." So that will be the second service. Of course, if you're here for the first service, we'd encourage you to stay for the second and just spend the day with us. We're kind of nice people to spend the day with. All right.

## **Bible Prophecy Update –January 24<sup>th</sup>, 2021**

### ***Decision Time: Part 2***

**JD Farag**

If you kindly allow me to, I want to begin with the Word of God, first and foremost, before we take and tackle this touchy topic. And it's a touchy topic. As always, I would encourage you to not take my word for it but search and examine the Scriptures for yourselves to see if what I am saying is true or not.

Act 17:11 says, "Now the Berean Jews were of more noble character than those in Thessalonica, for they received the message with great eagerness, and not only did they receive it, they examined it." They examined the scriptures, and not only did they search and examine the Scriptures, but they also searched and "examined the Scriptures every single day to see if what Paul said was true." That's what I want you to do.

Let's start with Revelation Chapter 13. I'll begin reading in verse 16 and then read through to verse 18. Then we'll sort of work our way back from there so as to establish a basis from which to work from—a well-known passage of Scripture, especially now, for obvious reasons.

Verse 16, Revelation 13, "It also forced all people, great and small, rich and poor, free and slave, to receive a mark on their right hands or on their foreheads, so that [verse 17] they could not buy or sell unless they have the mark, which is the name of the beast or the number of its name. This calls for wisdom. Let the person who has insight calculate the number of the beast, for it is the number of a man. That number is 666."

Now let's just back up a few verses still in Revelation, Chapter 13. I want to read verses 3 through 8. John writing, "And I saw one of his heads as if it had been mortally wounded, and his deadly wound was healed. And all the world marveled and followed the beast. So, they worshiped [worshiped] the dragon who gave authority to the beast. And they worship the beast, saying, 'Who is like the beast? Who is able to make war with him?' And he was given a mouth speaking great things and blasphemies, and he was given authority to [keyword] continue for 42 months [3.5 years].

Then [verse 6] he opened his mouth in blasphemy against God, to blaspheme His name, His Tabernacle, and those who dwell in heaven. It was granted to him to make war with the saints." That's not the church. These are the saints during the 7-year tribulation that come to a saving knowledge of Jesus Christ.

"... to overcome them. And authority was given him over every tribe, tongue, and nation. All [verse 8] who dwell on the earth will worship him, whose names have not been written in the Book of Life of the Lamb, slain from the foundation of the world.

2 Thessalonians 2:3-4, now, if you don't mind, I'm going to read this from the Geneva Bible version from the year 1599 for a reason. Verse 3, 2 Thessalonians 2, "Let no man deceive you by any means: for that day [speaking of the 7-year tribulation] shall not come, except there come a departing [keyword] first, and that - that man of sin be disclosed, even the son of perdition.

Which [verse 4] is an adversary, and exalted himself against all that is called God, or that is worshiped: so that he doth sit as God - in the Temple of God - showing himself that he is God."

Daniel 9:27, "He will confirm a covenant with many for one 'seven.' [a period of 7]. In the middle of the 'seven' [speaking of the 7-year tribulation, the 3.5-year mark], he will put an end to sacrifice and offering." This implies that the temple will have been rebuilt at the beginning of the 7-year tribulation. That up to this point, they were actually offering sacrifices in the newly rebuilt temple. "And at the temple, he will set up an abomination that causes desolation until the end that is decreed is poured out on him."

Matthew 24, I want to read verses 15 through 22. Jesus is speaking. Listen very carefully. "Therefore, when you see the 'abomination of desolation' spoken of by Daniel the Prophet..." What we just read, that's what Jesus is referring to. What we would know as Daniel 9:27. "... spoken of by Daniel the

## **Bible Prophecy Update –January 24<sup>th</sup>, 2021**

### ***Decision Time: Part 2***

**JD Farag**

prophet, standing in the holy place" (Whoever reads, let him understand), "then let those who are in Judea flee to the mountains.

Let him who is on the housetop not go down to take anything out of his house. And let him who is in the field not go back to get his clothes. But woe to those who are pregnant and to those who are nursing babies in those days! And pray that your flight may not be in winter or on the Sabbath." Because in Israel, all transportation shuts down. "

For then [verse 21] there will be great tribulation, such as has not been since the beginning of the world, until this time, no, nor ever shall be. And unless those days were shortened, no flesh would be saved. But for the elect's sake, those days will be shortened."

Last one Revelation, Chapter 12:6, "Then the woman [speaking of Israel] fled into the wilderness, where she has a place prepared by God, that they should feed her there one thousand two hundred and six days." 3.5 years - more specifically, the last 3.5 years of the 7-year tribulation.

Why? Because at the midpoint of the 7-year tribulation, the Antichrist will exalt himself in the Temple of God, declaring that he is God and that will be an abomination, and the Jews will realize it, and it will cause desolation. They will flee to this place that God has prepared for them to protect them and take care of them for the last 3.5 years of the 7-year tribulation. That's when Israel gets saved during that period of time, the last 3.5 years.

Okay. With the understanding of these specific passages, I think we're now ready to answer several questions concerning the decision that many today are facing. Also, at this time, we're going to end the YouTube and Facebook live stream and invite you to go to [jdfarag.org](http://jdfarag.org) for the remainder of the uncensored update.

Are you good? All right! Are you ready? Hang on. Buckle up, man. I'm serious, by the way.

Question #1. When will the vaccine [it feels good to say that] actually " BECOME" the mark of the beast? Now, this presupposes that you understand that the vaccine is currently not the mark of the beast. The vaccine will, keyword, become the mark of the beast - not yet. We'll talk more about it in a moment.

So, at what point does it actually, become the mark of the beast? The answer, it's unclear as to the exact time. Scripture indicates only that at the aforementioned 3.5-year mark, the midpoint, the Antichrist will exalt himself in the temple, declaring himself to be God. This does not mean that this is the exact time the vaccine will become the mark of the beast. As revelation 13:16-18, we just read-only says that it's the mark, not when it becomes the mark.

Now, if you'll bear with me and hear me out, we're going to go from what I'll call the "when" of the mark of the beast to the "how" it will become the mark of the beast. Perhaps better said, "when" will it become the mark of the beast, and "how" will it actually become the mark of the beast?

Those are the questions we're going to answer, so we don't know. There's no specificity in Scripture as to the exact time. Again, we're only told that the Antichrist will exalt himself in the Temple of God at the 3.5-year mark.

Now, why do I point this out? Because it is very possible that the vaccine could, in fact, become (become) the mark of the beast at some point in the first 3.5 years. It's very important that you understand that.

Question #2. If I take the vaccine now, am I taking the mark of the beast? Answer: No! Let me say it again, no! Why? Because the bride of Jesus Christ won't be here for the 7-year tribulation. We're looking for Jesus Christ and not the Antichrist.

## **Bible Prophecy Update –January 24<sup>th</sup>, 2021**

### ***Decision Time: Part 2***

**JD Farag**

The reason we're not here is that the bride of Jesus Christ has to be raptured before the Antichrist can be revealed. You don't have the Antichrist, you don't have the beast, so how can you have the mark of the beast? It's not here yet. It's coming.

But we're not going to be here when it does. Praise the Lord for that. Well, wait a minute, Pastor, are you going to... Yes, I am. In fact, I'm going to refer you, if you're interested, and the links, by the way, to everything we're going to look at today are on the website - not on social media.

There's a link below to a teaching on 2 Thessalonians, Chapter two, verse 3. Just that one verse, we devoted an entire teaching when we were going through 2 Thessalonians verse-by-verse. When we got to Chapter 2, 2 Thessalonians, verse 3, we devoted the entire teaching to this being the rapture.

It's the rapture. The departure is the rapture of the church that comes first. Then the Antichrist is revealed, but not before because, you see, the restrainer is restraining, and thank God for that. Once the restrainer is taken out of the way, and the church (the bride of Jesus Christ) is snatched away - all hell literally breaks loose. No more restrainer. I'm sorry if I'm yelling. I'll try not to yell so much.

Also, back on August 9th of last year, we devoted an entire update to the in-depth scriptural proof, proof, of a pre-tribulation rapture. I would encourage you if you're interested - those links again are below. All right.

Question #3. If I take the vaccine now, am I condemned and, as such, lose my salvation? Answer: No! Let me say it again. No, and here's why. If you're born again and sealed by the Spirit of God, there is absolutely no thing or no one that can take that away from you. If you're born again, you can't be "unborn again."

Here's the thing, if losing one's salvation is even possible, do you know what the implications of that are? It means we're not saved by grace but works instead, such that we have to earn it and/or keep it. That's not grace. That's works.

Ephesians 2:8-9, "For by grace, you have been saved through faith, and that not of yourselves. It is the gift of God, not of works, lest anyone should boast." Simply put, our salvation is not predicated upon what we do or what we don't do. Rather, our salvation is predicated upon that which Jesus Christ already did for us, instead of us, in that he died for us.

Period! It is finished! Period! Not comma! There's nothing we can do to add to it or subtract from it. It's finito. Is that Spanish? Cool. Kalas -that's Arabic. You got to love Arabic. It's such a rough language. I just baptized... Well, that's why nobody sits in the front, actually.

Romans 8, can I draw your attention to verses 34 through 39? Romans 8 is an amazing chapter in God's word. I really encourage anyone who ever doubts the love that God has for them are insecure in any way concerning God's love for them. I really encourage you to spend some time in Romans 8.

Verse 34, "Who is he who condemns? "It is Christ who died, and furthermore is also risen, who is even at the right hand of God, who also makes intercession for us. Who shall separate us from the love of Christ? Shall tribulation, or distress, or persecution, or famine, or nakedness, or peril, or sword, [or vaccine]?" Oh, sorry, that's not in the original. That's not there. That's the JDV.

"As it is written: [verse 36] 'For your sake, we are killed all day long. We are accounted as sheep for the slaughter.' Yet in all things, we are more than conquerors through Him who loved us. For I am persuaded, convinced that neither death nor life, nor angels nor principalities, nor powers, nor things present nor things to come, nor height nor depth, nor any other created thing, shall be able to separate us from the love of God, which is in Christ Jesus, our Lord."

Oh, wow. Wow! WOW! Right? I mean, it pretty much covers it. I don't think there's anything missed in here. Anything created, height, depth, doesn't matter. Nothing could separate you. Okay. Let me try to catch my breath here.

## **Bible Prophecy Update –January 24<sup>th</sup>, 2021**

### ***Decision Time: Part 2***

**JD Farag**

Before we move from the "when" to the "how," I think I would be grossly remiss were I not to talk a little bit about those taking the vaccine now. Specifically, what's happening to those who, of their own volition, have already made their decision. Or they are about to make their decision to take the vaccine now. Sadly, it's not good, and if truth be made known, many who have taken it have either died or are experiencing debilitating illnesses.

I'll start with excerpts from an email I received permission to share from someone I personally know and have known for many, many years that's in the medical field. "So far, approximately 50% of our employees have received the vaccine. The second vaccine has caused severe symptoms in my staff, who experienced the extreme anxiety from the first vaccine.

One of them texted me that as soon as she received the vaccine, she felt uneasy and lightheaded. She also experienced intermittent chest pain, aches, chills, nausea, and headaches. She just informed me that she still is unable to return to work because she feels so weak and fatigued all the time.

She also sent me the following summary of the FDA randomized trial, "The trial was a randomized, double-blind, placebo-controlled trial with approximately 40,000 participants from the USA, Argentina, Brazil, Germany, South Africa, and Turkey.

The younger patients had a higher frequency and severity of adverse reactions when compared to the older group (55 years and older)." I guess I'm older - In the older group. "the most common side effects were: injection site reactions, fatigue, headache, myalgias, and fever.

The safety analysis looked at adverse reactions over a two-month follow-up. Adverse reactions for vaccines in general typically happen within the first 6 weeks. Bell's Palsy was reported by 4 vaccine participants and none in the placebo group. The observed frequency is consistent with the expected background rate in the general population.

There was a total of 6 deaths in the study. There were 3 cases of significant adverse events considered by the investigators to be related to the vaccine: shoulder injury, ventricular arrhythmia, and lymphadenopathy." I hope I'm pronouncing that correctly. "The ventricular arrhythmia was in a participant with a known cardiac condition."

Now, why am I sharing this information? Because for those who are considering taking this vaccine, you should know a few things about it. In my research over the last several weeks, I found many who had died as a direct result of the vaccine. However, most of the reports and articles have been scrubbed from the internet, save 2 from Arutz Sheva in Israel.

The first of which is about a 75-year-old Israeli man dying just 2 hours after getting the COVID-19 vaccine. The second is about an 88-year-old who collapsed and died several hours after being vaccinated. On December 2nd, Laura Ingram interviewed Dr. Sucharit Bhakdi, on Fox News about the COVID vaccine.

Here are some quotes from that interview: Ingram - "Doctor, on the issue of the vaccine, tonight, Anthony Fauci, on this network, actually said that 75% of Americans are going to have to get vaccinated to reach what they call "herd immunity." Do you buy that?"

Dr. Bhakdi: "What utter nonsense. I know that Dr. Fauci is a renowned medical scientist and immunologist. But what he says is wrong. This is also what we have taken great lengths to explain in the book. And why - you know, someone who says this has not the slightest inkling of the basics of immunology. And this is very, very surprising for someone of Dr. Fauci's standing. And I would dare to defy him anywhere in the world at any time. But I cannot do it in 2 minutes."

Ingram: "Well, so you believe that the COVID vaccine is not necessary?" Listen to his response, quote. "I think it's downright dangerous. And I warn you, if you go along these lines, you are going to go to your doom. And it's so, so unnecessary."

## **Bible Prophecy Update –January 24<sup>th</sup>, 2021**

### ***Decision Time: Part 2***

**JD Farag**

Pictured here is a screenshot of a must-see video on Bitchute. It didn't survive on YouTube. It's titled, "Doctors Around the World Issue Dire Warning: DO NOT GET THE COVID VACCINE!! Again, the link is below on the site. Doubtless, many of you have heard about or viewed a video by Dr. Simone Gold.

Again, it didn't survive on YouTube. We did put a link to another YouTube channel that put it back up. It may not survive, but it might still be there. The link is below. Hopefully, it doesn't get pulled. But I want to just read you a quote from this video. Very interesting.

Listen very carefully. Quoting, "I learned pretty early that the big fight was the fear. The big fight wasn't the virus; it was the fear. Now the fear has led people to really just want to go back to normal life, so they're either kind of consumed with fear or consumed with just being weary of the whole situation.

That is what I think is leading to people making what is really a fundamentally irrational decision to rush headlong towards an experimental medication. They just kind of want to get their lives back. We've been told, 'Get the vaccine, you'll get your life back.'

I have to give you the bad news, that is definitely not what's going to happen. Whether you take a shot or you don't take a shot, it's not going to happen. You know, Dr. Fauci has gone public already, saying with many others, the surgeon general and many others have said, it was the Business Insider, I think just today, you know this so-called vaccine..."

Now, I don't have time today, and maybe in a future update, I want to talk about how this isn't even actually a vaccine. It's actually not a vaccine. "This so-called vaccine experimental biological agent actually doesn't stop transmission. You're going to have to keep going with the masks and the social distancing. It actually changes nothing."

Please know that I'm simply wanting to inform you concerning the decision to take or not take the vaccine. If you make the decision to take it - you need to know the facts about it. And the fact is you will not "get your life back." It's never going back. It's a lie! It's a deception!

Here's the truth. There are serious, even deadly, side effects from it. No back to normal because of it - and the dangers of what's actually in it. What's in it? Oh! You have to... pass the law before you can read... Sorry, I had a flashback, and I'm back now. You have to take the vaccine to find out what's in it? No, thank you.

Now we actually do know some of what's in it. Before it was taken down, I managed to take a screenshot from the Kennedy Institute of Ethics, Georgetown University, showing that cells used and vaccines produced are using aborted fetuses. The most widely used fetal cells are WI-38 and MRC-5. The WI-38 cells were derived by Leonard Hayflick in 1962 from the lung of a 3-month female fetus. The MRC-5 cells were obtained in 1966 from the lungs of a 14-week male fetus.

Okay, now you might be asking the question of that was a long time ago, that was then. What about now? Is there fetal tissue from aborted babies in this vaccine? Answer: Yes! Absolutely, yes. Here's a quote from an AstraZeneca "Global policy." This is an additional policy that I found online. There was another AstraZeneca "Global policy" that I referred to and quoted from in Part 1.

But this is a different one. Quote, "In rare circumstances, [you got to love how they couch this] AstraZeneca Group may use human fetal tissue in research to advance our understanding of serious medical disorders. In such rare circumstances, an internal review of the scientific validity of the research proposal will be conducted, and permission to use the tissue will be granted only when no other scientifically reasonable alternative is available."

Translated, we use fetal tissue. Remember aborted babies. "In order to further limit and avoid future use of human fetal tissue, we remain at the forefront of scientific advancements and remain committed to implementing industry best practices."

## **Bible Prophecy Update –January 24<sup>th</sup>, 2021**

### ***Decision Time: Part 2***

**JD Farag**

Translated, they use fetal tissue from aborted babies. Pictured here is a COVID-19 Vaccine AstraZeneca box, and I want to draw your attention to ChAdOx1-S [recombinant]. The reason being is that there are those who claim that the recombinant strains used in the AstraZeneca [vaccine] are grown from the fetal tissue of an aborted baby.

A video was uploaded and then censored and removed on December 6th, showing the possibility of the recombinant DNA and MRC-5 being originally developed from research deriving lung tissue from a 14-week-old aborted Caucasian male fetus.

Okay, that's AstraZeneca, what about Pfizer and Moderna? I'm glad you asked. On December 20th, the National Review published a report confirming that both use fetal tissue. In the case of both the Pfizer and Moderna vaccines, it was HEK 293 kidney cells that were used. These are believed to have originated with an abortion.

In this article, we have the link where they quote a doctor who tries to play it down, it's kind of like the AstraZeneca policy. Here's the quote, "While the connection with abortion is still there, Pfizer and Moderna have not been trafficking in babies' body parts in the same way that Planned Parenthood has been accused of." Oh, that makes it okay.

"Dr. Meaney concurred with this assessment, calling it a very important distinction between reproduced fetal cell lines and fetal tissue." They want to delineate and kind of, you know, make it more palatable. There is only one problem. It's the same word: fetal - fetal. You can pretty it up and clean it up and do whatever you want - it's still an aborted baby!

"... a very important distinction between reproduced fetal cell lines and fetal tissue, though he stipulates..." And in all fairness to his credit, he says this quote, "in his opinion, it is wrong in every case for scientists to work with this material." I concur!

On June 5th of last year, sciencemag.com also confirmed the use of human fetal cell lines from an aborted fetus. "At least five [quoting] of the candidate COVID-19 vaccines use one of two human fetal cell lines: HEK-293, a kidney cell line widely used in research and industry that comes from a fetus aborted in about 1972. And PER.C6, a proprietary cell line owned by Janssen, a subsidiary of Johnson & Johnson, developed from retinal cells from an 18-week-old fetus aborted in 1985."

Again, don't take my word for it, do your own research. Listen, if I can find this, you can find this. Let's move to the "how."

Question #4. How will the vaccine actually become, become, the mark of the beast? How? To this question, I should also include another question of: How can the vaccine become the mark of the beast when it cannot be injected into the forehead? It's into the arm. Not the head or the hand?

Answer: Here is how. The technology is such that the vaccine will be administered by way of a Quantum Dot Tattoo, both powered and monitored by what's known as "Luciferase." No way, whoever said, "no way?" I love you, man! Way!

You have to understand that Lucifer means "light-bearer," so this is what powers it. It gives it the light, the power, the energy. It illuminates it. Luciferase, it's like Lucifer-erase. Pictured here is the NIH National Center for Biotechnology Information Web page about "Creating Self-Illuminating quantum dot conjugates."

Let me quote from the abstract, "a new type of quantum dot conjugate has been reported that can luminesce with no need for external excitation. These self-illuminating quantum dot conjugates can be prepared by coupling of commercially available carboxylate-presenting quantum dots to the light-emitting protein Renilla luciferase. The energy released to the quantum dots [still quoting] through bioluminescence resonance energy transfer, leads to quantum dot light emission."

## **Bible Prophecy Update –January 24<sup>th</sup>, 2021**

### ***Decision Time: Part 2***

**JD Farag**

In layman's terms, this technology will be the energy source for a transhuman operating system with all of one's identification and information, vis-a-vis what's supposed to be a vaccination. Pictured here is an illustration from scientificamerican.com showing the Luciferase Quantum Dot Tattoo being placed on and in one's skin."

Allow me, parenthetically, to mention this here - again, if you have ears to hear, this is a non-issue. If you don't have ears to hear, you've slandered your brethren over the wording in Revelation 13. No, it's not on - it's in. No, it's not in - it's on. Are you ready for this? It's both! This is both! That's what this does. It goes on and then in.

Stop arguing with the saved. Start reaching the lost! Please! I plead with you! Okay, Lord, help me.

What follows are several screenshots of photos from a Georgia Tech YouTube video showing the actual quantum dot microneedle patches to deliver a vaccination. Looks kind of like a Band-Aid, doesn't it? It's a patch containing microneedles. In Part 1, we made the connection between Revelation 13 in the original language of the Greek New Testament. The mark has with it this idea of palisades, sharp-pointed objects.

It's this! This is the mark! And you put it on your forehead. Well, why would you put it on your forehead? Oh, what if you don't have hands? Prosthetic - you're going to put it on the forehead. What if that's your preference? You know, this whole conditioning thing?

I went into the bank the other day. I'll never go back to the bank. I got an app now. I can scan all my deposits. I'm never going back there again. I'm so traumatized by what happened. I walked in, and there is this guy at the door. Because you need to stand in front of this thing and we have to scan you. I'm like... What?

So, here's this device. You know, you walk up to it, and it's kind of like 666. No, it didn't say that, but it starts scanning me! It takes my temperature - scanning my forehead! Are you kidding me? It's a preconditioning! It's a preparing! It's a precursor.

Here's a close up of the other side of the Band-Aid looking patch in the previous video. Here's another view of the side that goes on and in the skin. You put it on, the needles go in, then they dissolve, and it delivers the poisonous venom. And then once it does that, they can scan it. Oh, you've been vaccinated so you can enter in, and you can buy your spicy ahi poke today.

I know I said this before. I hope you don't tire of me saying it again, but it's true. Mask is one letter away from mark. M-A-S-K; M-A-R-K; we cannot buy or sell without a mask. Preconditioning. Preparing. Precursor.

Here's a screenshot of a woman as she places it on her forehead. This link is below there on the site. You can watch this video if you want. Yeah, pray before you do - chilling.

Back on April 8th of last year, Carnegie Mellon University published a report about CMU having developed microneedle patches that are ready for COVID-19. In it they say, the "Microneedle arrays contain hundreds of tiny needles [palisades] clustered on a miniature patch about the size of a contact lens." That's pretty small.

"The microneedles are made from bio dissolvable sugar-like natural materials. And the vaccine or drug to be delivered is mixed with this water-soluble material when fabricating the microneedles. When applied onto the skin, the microneedles quickly dissolved and deliver the medication. Due to the small size of the needles, the microneedle patch causes no pain or bleeding." Oh, that's so nice of you. Thank you so much that it doesn't.

Question #5. How does the vaccine actually alter the human DNA? The answer, by way of what's known as CRISPR/Cas 9 technology, which in effect, slices the human DNA and splices the human DNA.

## **Bible Prophecy Update –January 24<sup>th</sup>, 2021**

### ***Decision Time: Part 2***

**JD Farag**

Here's a screenshot from sciencenews.org published on August 14th, 2019, about this CRISPR/Cas 9 technology, which is a, quote, "re-engineered virus-hunter, originally developed by bacteria.

In 2012 and 2013, scientists described how the system could be tweaked [listen] to cut DNA in precise locations and then demonstrated how it could be deployed in human and animal cells. A piece of RNA [sound familiar?] - a single-stranded genetic molecule similar to DNA - is the CRISPR part and guides an enzyme called Cas 9 to a particular spot in the genetic instruction book, or genome." Your Genetic DNA code. "The enzyme slices through both strands of the DNA double helix. Cuts can be used to disable certain genes, snip out troublesome DNA or even repair a problem. Is that right? How convenient.

Just last Monday, January 18th, Genetic Engineering & Biotechnology News published an article about how DARPA (the Defense Advanced Research Projects Agency, which oversees government research and development programs) is now funding CRISPER diagnostics, using Mammoth, IDbyDNA Technologies.

Here's a quote, "The device will apply a platform designed to provide actionable data for [listen to this word] biosurveillance... " It's right here! WOW! "... biosurveillance efforts, which DARPA said included 'characterization of known and emergent pathogens in circulation to inform countermeasure deployment.'" But this, this is a weapon!

"The device is intended to enable early threat detection, assess disease severity, and improve situational awareness.' The contract enables DARPA to carry out its [quote] "Detect It with Gene Editing Technologies (DIGET- the acronym]. DIGET calls for developing a "massively multiplexed detection" device for 1,000 or more targets - as well as a hand-held, disposable point-of-need device for the detection of at least 10 targets - both pathogens and host biomarkers."

Biomarker - mobile device, on-point, on-demand, to-scan. That's what that is.

Back on April 12th, 2018, Business Insider published an article titled, "Bill Gates says it would be a 'tragedy' to pass up a controversial, revolutionary gene-editing technology." Quote, "Bill Gates is advocating for the use of genetic editing tools like CRISPER. CRISPR allows scientists to edit DNA, eliminating undesirable genes [like the human ones] and potentially swapping in preferable alternatives.

In the past few years, scientists have revolutionized our ability to do so with the discovery and refinement of a molecular tool called CRISPR that allows us to edit sections of DNA. [alter sections of DNA!] This tool can snip specific parts of genetic code out and replace them with new segments, eliminating diseases or giving [I'm still quoting] creatures whole new traits." Ahhh! Really?

"While it was possible to edit DNA before CRISPER's discovery, this tool allows us to do so far more accurately and cheaply than ever before. If the world is to continue the remarkable progress of the past few decades, it is vital that scientists, subject to safety and ethics guidelines, be encouraged to continue taking advantage of such promising tools as CRISPER," Gates wrote.

Quoting, "Still, Gates has been long supportive of using genetic editing tools. He was one of the early investors in Editas Medicine, one of the first companies to start trying to use CRISPER to eliminate human diseases." We should not be surprised. His dad was one of the founders of the eugenics movement. They repackaged it and called it Planned Parenthood.

Gates Foundation researchers have worked for nearly a decade on ways to use genetic editing to improve crops... " By the way, Gates is buying up large swaths of farmland. "... to improve crops and to wipe out malaria-carrying mosquitoes." That's all another topic for another time.

"The ability to easily modified DNA is a wildly powerful tool that could do a world of good as long as it's done carefully." As Gates wrote, and I quote, "It would be a tragedy to pass up the opportunity."

## **Bible Prophecy Update –January 24<sup>th</sup>, 2021**

### ***Decision Time: Part 2***

**JD Farag**

April 30th of last year, Bill Gates, in a video on his "Gates Notes Blog," which was also posted on his YouTube channel (that never got pulled down), explains what he refers to as RNA and DNA vaccines using this model, pictured here, of the human DNA strand.

Quoting Gates, That's why I'm particularly excited by two new approaches: RNA and DNA vaccines. If one of these new approaches pans out [this is April 30th of last year], we'll likely be able to get vaccines out to the whole world much faster."

"One final way that's new and is promising is called the RNA vaccine. With RNA and DNA [listen to this], instead of putting that shape in, you put instructions in the code to make that shape."

Let me see if I can say the same thing in a different way. mRNA, the M is messenger. So, it's a message like an email message that is sent to your DNA, and it re-instructs it, splices it, slices it, and inserts in it this new, whatever it is.

Here's a quote from Bill Gates pictured here with his wife from a video when he was in Brussels, Belgium, on January 22nd, 2015, speaking at a conference. "... is there something to worry about with medications? Might some of them have side effects? Do we need safety testing?

I mean, we're taking things that are genetically modified organisms, and we're injecting them into little kids' arms. We just shoot them right in the vein.", and that's exactly how he does it. He demonstrates it. It's so eerie! We just shoot them in the arms!" And then he's got this smile on his face. I'm like, really? Hang in there with me.

There's one last thing on the altering of human DNA before we move any further, and it has to do with the "why." So that's the "how", we've discussed the "when."

But why? Why alter the human DNA? Satan, from the very beginning, has sought to corrupt human DNA. We actually answered this back on December 13th. Again, we devoted the entirety of the update titled, "What's Next?"

Concerning what the book of Genesis refers to as Satan's see, Genesis 3:15, here's the answer as to "why." The reason why Satan seeks to alter man's DNA is so he's no longer human, but transhuman, and as such cannot be redeemed because Jesus as God became a human to redeem humans. And Satan knows that.

Now please hear me out on this. This does not mean that one who takes the vaccine now is unredeemable. It's sad that I even have to say that, let alone emphasize that. Let me say it again. This does not mean that one who takes this vaccine now is unredeemable. Why? Here's why. Because the aforementioned technology is not yet used, and the beast has not yet been revealed -so it can't.

It's after the rapture, and potentially at the beginning of the tribulation, when the restrainer is removed (out of the way), and the Antichrist is revealed (and the church is raptured), that those left behind (during that period of time) will be faced with this decision. It is an eternal decision, and it will determine whether one is damned or saved in the 7-year tribulation.

One last thing on this. Did I already say one last thing? Okay, one last, last thing. Again, please listen carefully. The enemy does not want you to hear this and know this. After the rapture, those left behind during the 7-year tribulation will not unwittingly take the mark.

What do you mean? By that, I mean nobody is going to be tricked (during the tribulation - after the rapture) into taking the mark of the beast by virtue of the fact that this is incompatible with the nature of a loving God.

2 Peter 3:9, "The Lord is not slow in keeping his promises, as some understand slowness. Instead, he is patient with you, not wanting anyone to perish but everyone to come to repentance. God wants

## **Bible Prophecy Update –January 24<sup>th</sup>, 2021**

### ***Decision Time: Part 2***

**JD Farag**

people to come to Christ. God will never allow it. It is incompatible with who God is. Nobody is going to be like, did I just take the mark? Yeah, you're doomed for all eternity. No! That's not who God is.

John 3: 17, you know the verse after the most famous and well-known verse in all the Bible? John 3:16, "For God so loved the world that He gave His Only-begotten Son whoever would believe in Him would not perish but have everlasting life."

Do you know what the next verse says? I am going to read it. "For God sent not his Son into the world to condemn the world. But that the world through him might be saved.

Let me say it like this. God is going to orchestrate the circumstances and choreograph the steps of everyone's life in such a fashion that it's conducive to their salvation. He can't not do that. That's not who God is.

In other words, because He does not will that any should perish, but that all should come to repentance. God is going to do everything and stop at nothing to direct that person to the person of Jesus Christ for salvation. That's who God is. That's who God is. All right.

Question #6. How should we, as Christians, respond in light of this information? Answer: Now, like never before, it is absolutely incumbent upon us to get Jesus to people and people to Jesus as quickly as we possibly can.

There's no more time. It's decision time. This is the time. The time is now. The urgency is now! We have to get Jesus to people and people to Jesus now! Now! I'm pleading with you, please!

If you're watching this online, this is why we do this. Do you know what's at stake here? For those who are not Christians, or how about this, those who think they are Christians but are not?

Just bear with me. When I see people, I don't see them as anything but either saved or lost. I don't see him as a Democrat or Republican. Again, I hope you don't tire of me saying that It changes everything. Instead of being angry at them, I'm praying for them. Jesus, Jesus, Jesus. Be merciful, Jesus.

Because if that trumpet sounds and that trumpet is going to sound, when the dead in Christ rise first, we who are alive and remain are caught up, raptured, and they're left behind? This is what they're going to be faced with again.

Again, this is why we do these updates, and it's why we end with the Gospel of Jesus Christ and the simple ABCs of Salvation, which is just an explanation of salvation. What's the Gospel? The Gospel is good news: That Jesus came, and He died for you instead of you. He was buried, and He rose again on the third day, and he's coming back again one day to take us to that place that He prepared for us in His Father's house.

That's the good news. The ABCs of Salvation is... I mean, really see it as a template. It's just a tool that you can use that's simple, child-like simple, to explain salvation to someone.

The A is for: Admit or acknowledge that you're a sinner - in need of the Savior. Romans 3:10 says, "There is no one righteous, not even one." And Romans 3:23 tells us why. It's because all have sinned, all, and fall short of the glory of God.

Romans 6:23 is kind of interesting because it packages first, the bad news with the good news. What's the bad news? The bad news is the wages of sin is death, the death penalty—the good news. The gift of God is eternal life in Christ Jesus, our Lord. It's a gift. He paid for it with His life. It cost him everything, His blood. He paid for it in full, and He offers it to us as a gift.

The B is for: Believe in your heart that Jesus Christ is Lord. Romans 10: 9-10 starts off by saying, "If you believe in your heart that God raised Jesus from the dead, you will be saved.

## **Bible Prophecy Update –January 24<sup>th</sup>, 2021**

### ***Decision Time: Part 2***

**JD Farag**

The C lastly is for: Call upon the name of the Lord. Or as Romans 10, 9-10 goes on to say, "If you confess with your mouth, 'Jesus is Lord,' and believe in your heart that God raised Him from the dead, you will be saved. And here's why "For it is with your heart that you believe and are justified, and it is with your mouth that you confess and are saved.

Lastly, Romans 10:13 seals the deal, "All who call upon the name of the Lord will be saved." Period - not comma. You will be saved. Not comma, if... Not comma, however... No, period! You will be saved. It's that simple.

Will you allow me to share with you one testimony before we end? Don't look at your watches. It's an email from an online member by the name of Brian Billmeier, who writes, "I had an experience this past week so important and moving to me personally that I felt I needed to write to both to thank you and report back on the encouragement and difference that you are making far beyond the walls of your own church. This is for you guys, too, by the way.

My name is Brian, and I work in the healthcare industry. I first became aware of your prophecy messages a few months ago when a good friend in Christ shared one of your videos. Since then, I have viewed a few more videos and always found them valuable, but because of life and commitments, it had been a while since I'd watched one.

That brings me to last week. As mentioned, I work in healthcare and drive to many different cities in my home state of Indiana. I spend the day in hospitals and doctor's offices, speaking with healthcare professionals and in areas where patients are often present. Because of this, I know that at some point, my employer will require me to take the vaccine or lose my job.

I have known this in my heart since the day the vaccine was first discussed and went into research. It has troubled me deeply because I am the provider for our large family, and we have health insurance and are able to live a very good life because of my job. These concerns were heavy on my mind and heart as I drove about an hour and a half from my home last week to the town of Terre Haute, Indiana.

Last time I totally mispronounced that, Terre Haute. I just want you to know I know how to pronounce it now.

During the ride, I made phone calls to two other friends who also work in my industry to seek their advice on what to do when the day inevitably comes. They didn't have much to offer and are also struggling with this decision. I was troubled in my spirit, to be sure. As I began to get to the outskirts of Terre Haute, I came to a busy intersection.

When I looked to my right out of the window, what should I see but a random street bench with an advertisement for none other than JD Farag Prophecy and the message, "Afraid and confused? Jesus is the answer."

I immediately grabbed my phone to take a quick photo of this, thinking I'd send it to my friend who had first sent me the prophecy video so we could laugh and wonder how in the world a sign for JD Farag all the way over in Hawaii ends up in the middle of nowhere in Indiana. Emphasis added.

Something of note. My phone is exceptionally bad at taking pictures of anything with movement. It's almost always blurry, even with just the slightest twitch. I had about 2 seconds to grab my phone off the center console and snap this pic out of my window as the car was moving away, and I figured the chances of actually capturing it were about zero. Yes, there it is crystal clear and completely readable.

I sent the pic to my friend, and we did enjoy a chuckle over the sheer unlikelihood of this existing, let alone being seen by me. After completing my workday, I headed back home and decided, as I often

## **Bible Prophecy Update –January 24<sup>th</sup>, 2021**

### ***Decision Time: Part 2***

**JD Farag**

do when driving, to listen to a podcast. It occurred to me, because of that bench sign, to check in on the latest prophecy video, and so I pulled it up.

Imagine my shock when the topic was "Decision Time" and appeared to be about exactly what had been tormenting my mind. I spent that ride listening and both learning and being comforted in a way that I could not have imagined when I left home that morning.

To say I felt as if God was speaking directly to me and my need is an understatement. I didn't just feel it. I knew it with my whole heart. I am old enough to know that in the ways of God, there are no coincidences or accidents, and this event was so powerfully moving to me that I felt I had to share it.

I am still very worried about what will happen when my own personal decision time comes. I am worried about how I will feed my family, care for their needs and maintain all of the things we have been so richly blessed with - such as my own human weakness and lack of faith. But what I know now, along with the certainty that neither I or my family will be submitting to this vaccine, is that God will take care of us. He will provide for us in some way, and that has made a world of difference. Thank you so much for this encouragement and for the work that you were doing. I am sincerely grateful.

And I want to give a shout out to whoever that was in Indiana that put that bench up! Only God could do that.

Why don't you stand? I'm going to have the worship team come up with close in prayer. But before we do ...

Okay, this will be the last, last thing that I mention, and it's really a word of encouragement. Don't think for a second that I'm not keenly aware of those who are faced with this decision, and your livelihood is at stake. Your ability to provide for your family is at stake. That job that you've had for how many years now is at stake.

I want to encourage you. I hope this doesn't sound candor, cliché, trust God! Trust the Lord. He is able. He can provide for you in ways that you could have never even begin to imagine. You think He can't? There's nothing too hard for the Lord. He can do the impossible. Trust Him to do it. Yeah, but, Pastor, are you kidding me? I mean, I'm going to lose everything. No, not really. If you lose your life in this world? You keep it. You keep it. Yeah, but! No, trust the Lord.

Okay, this will be the last, last encouraging word. Not much longer. No, let me say that again in a different way. Do you see how fast everything is happening, right? Am I right? Everything that we're seeing and everything we just looked at that will ultimately find its fulfillment in the 7-year tribulation. And it's already happening now. And the rapture has to happen before, and it does.

Then how close are we? I would suggest that we're closer than any of us can possibly even begin to imagine. I think about what Jesus had John write to the church in Philadelphia: You just hang on. I know you're weary. You just hang on, man. I'm coming. I'm coming. Do you see what's going on? I'm coming, man! I'm coming!

Let's pray. Thank you, Lord. Lord, I just want to ask you, very simply, for anyone that might be here in church service or watching online that has never called upon you, believing in their heart, confessing with their mouth, putting their trust in you for the forgiveness of sins, I pray that today would be the day of their salvation. That they would not put off even one minute longer the most important decision of their life for eternal life.

Lord, encourage the battle-weary, encourage and strengthen their hearts with that much-needed reminder that you're coming. Not much longer! Maranatha! Come quickly, Lord Jesus.

In Jesus' name. Amen.
