

## Joshua Part 6 || Close Enough Christianity

 Basketball shoes, cost him in the long run

The people of God are finally walking into the promise. They are taking possession of the land of Canaan

This book = Joshua's leadership in taking over the land & ending the pagan gods...

These stones are things I don't ever want to forget about what God has done.

Joshua is about to divide the land by the 12 tribes...

 Joshua 22

 Numbers 34

 God says, I have a specific design for you, for your family, your spouse, your finances, your life... God is asking that they live within the bounties of the promised land.

 Numbers 32

Reuben & Gad built an altar... this angered the other tribes, they thought it was a contradiction to what God said. - we assume the worst in people, true for us today too. We project every thought & intention

 Joshua 22   

"The Lord, the Mighty One, is God!"

They chose to live within the boundaries... they requested to live outside the lines of the promised land. But they had a replica

Close enough is not a winning strategy,  
When it comes to the promises of God.

We are close but we aren't walking in the promise

 Matthew 16:24

 1 chronicles 5:25-26

You can't be detached and be close enough...

God does not call us to create converts but disciples.
