

The Story of the Ages / 5.1.22 | Key: Question (Leader's Notes)

Icebreaker: **What is a movie that you love to watch over and over again and why?**

Read Daniel 7:1-22 (and then ask someone to summarize what we just read.)

What is one thing that stood out to you from our passage and/or Justin's message?

What was the most interesting thing or something new that you learned from this apocalyptic literature?

Apocalyptic literature is:

- Full of images to capture the heart.
- Meant to be clear in the main points.
- Meant to be practical.

How do you deal with the reality that evil exists, it persists, and it isn't dealt with in the timing that you would want it to be?

Justin said, "Only Christianity says that there is real evil but it has an expiration date that will be ensured by God." **How might non-believers think about this reality, not knowing the end of the story?**

The good news is that our God rules and reigns still. He is gloriously good, everlasting, and sovereign in power. **How does this practically impact our present circumstances/struggles?**
