

Read Romans 12:9-21

What was encouraging or challenging from Jerry's message or the passage?

In Romans 12, Paul turns from Gospel instruction to Gospel application. **Why do you think Paul decided to instruct before giving application to the readers?**

Gospel love is committed to the truth. **Describe how it could be unloving to not tell the truth.**

Jerry mentioned that hospitality is someone going from being a stranger to a part of the body of Christ. **What are some ways that we can be more hospitable to people in our spheres of influence?**

What is your typical response when someone opposes you or something you believe in? (*Focusing on how to not avoid the difficult to love people in our life*).

The way we see people encounter the love of Christ is by loving like Christ, and in order for us to love non-believers with the love of Christ, we have to have relationships with non-believers. **How can we be more intentional with relationships with people who are far from Christ? Or how can we start those relationships if we don't have them currently?**

Are there difficult people in your life that you have been avoiding or have unresolved conflict with?

Pray a prayer as a group giving permission to God to reveal relationships that are broken and to give you the strength to reconcile them.
