this is where we get to have a discussion

uh and go deep

first of all

we wanna bless you moms out there today

and we're gonna go deep

I have a special guest with me

my mom pal hobby

and I just wanted to ask her some questions

and ask her to pray over your mom's and importation

and this impartation to me uh

is I couldn't really release anybody better on you

Happy Mother's Day

thank you yes

absolutely yeah

this today uh

I just wanted to have a discussion about moms

and some of you uh

are spiritual moms

some of you are natural moms

some of you are single moms

some of you are wanting to be moms

and so that's what we're gonna go after

we're gonna release an importation over you for that

so mom again

thanks for joining me today

Happy Mother's Day

it's an honor

it's good to have you here

you're a mom of this house

and I've seen you mother so well

you've got six kids and

but then you have a ton of kids throughout the years

who have been a part of our family

you've welcomed them in

and they've just somehow known that at the Hobby House

they're safe

and you've done that

that's right

yeah I love kids  
I love teenagers especially  
I still do and I get along great with them  
and with six kids  
you get a lot of friends around the house  
so it's very easy to have a big family  
more than just my children  
because everybody becomes my children  
and it's kind of even that way here at the house  
it is church yeah  
that it's beautiful how people just call me Mama Pat  
and I love it  
that's good  
okay well I've got some questions for you mom  
and then I want you to pray and prophesy  
over all the moms today and all the people  
and if you're uh  
uh a man uh  
or a young man  
and you're watching  
don't get off  
there's gonna be something in this  
for you that might change the way that  
you think about your wife or your mom  
or your grandmother  
or your sister  
and you need to hear what  
what's going on inside the heart of a mom  
and so stay with us  
all you guys  
stay with us  
this isn't just for moms  
so first question  
mom is this  
what are some keys to being a godly mother  
if there's a godly mother out there  
and we know there are tons  
what are the keys to being a godly mother  
well first of all  
I would say that you have to love the Lord  
your God with all your heart  
you go after him with everything  
you have to be that godly mother  
because you have a big job  
it's not easy always being a mom  
it's a hard job  
but it's the most rewarding job and prayer

pray pray pray  
there are going to be lots of times  
that you won't know what to do  
unfortunately  
God gives us inexperienced parents when we're born  
and so we don't know what to do  
we make a lot of mistakes  
but god is the source of our strength  
he will teach us along the way  
and always be ready to repent and say  
I'm sorry and it's okay  
validate the kids' feelings when there may  
you may have done something wrong  
god is always so faithful to be able to um  
draw you near  
so I would say prayer is key  
being close to god  
having your alone times  
I know with 6 kids in the house  
I was a single mom  
raising 6 kids for many of those years  
and my alone place was in the bathroom  
that's only place I could find alone  
but that's where God always met me  
there were tears  
there were things  
God would just show up at my room  
and it was like  
that was my  
my alone time with the Lord  
and you have to find those times  
to be able to react to things or instruct your kids  
teach them well when they're young  
because when they're old  
they won't depart from it  
that's the key from  
bought from the Bible that tells us  
don't forget to teach your kids  
don't just try to pacify him  
teach him all their young  
because they will not forget that  
and take them to church  
now I wasn't always walking with the Lord  
and there were times where  
um mom had to set boundaries for me  
healthy boundaries for the house  
she uh was very loving and always accepting of me

but when I was doing stupid stuff  
she would set boundaries and she didn't let her kiddos  
um do that stuff in her house  
um she would often say not in my house and I  
uh I just want to empower the moms to just set the tone  
set the culture in your house  
I'm determined what happens there  
and um also  
um what's the role of a mother with kids  
who are in the home  
and then how does that role change when they grow up  
and they're out of the home so  
what's the role of a mom when the kids are in the home  
and what's the role of a mom  
how does that shift when they become adults  
what you love on your kids  
you give them the boundaries that we're talking about  
and the discipline that they need  
but you do all things in love  
it had you have to lead with love  
because if you are angry  
there's many times I was angry and frustrated  
you get frustrated  
walk away until you can cool down  
and emotions aren't leading it  
you need to lead with love  
your kids will understand and learn much  
much sooner by leading with love  
but um yes there were a lot of times that  
we have to set boundaries for our children children  
children thrive in boundaries  
and I've seen homes that have been destroyed  
because there were no boundaries  
and so it's  
that's a key  
that's really an important one is  
but teach them and love them a lot I mean  
you have to have equal amounts of love and discipline  
so if you're disciplining too much then  
then guard it  
but just the love of the Lord  
talk about the Lord  
give them instructions on  
on the awesomeness of who they are  
the creation of god that they are  
and those that were here  
I'm sure these

the same audience was listing before  
she brought that out so beautifully  
about the love of god  
and how much he loves our children and  
and ourselves all the time  
so I would say um  
just prayer is key  
prayer is key  
but leading  
leading the kids to Jesus is important  
but they have to  
you can't beat it into him  
I used to try that sometimes and it didn't work  
you know they resist in the rebel  
but loving loving  
loving is really a big key  
and bringing your kids to truth and always talk truth  
always talk about god  
they all knew I was  
I set boundaries around my house I still do  
my grandkids  
my great grandkids  
they cannot come with certain things around my house  
and because we've been hurt by those things  
and I don't allow it  
and they totally love me  
they totally respect me  
none of them  
have ever shown me disrespect because of my boundaries  
so it really  
really pays off  
there are times where you have  
been a mom with a husband in the house  
and then there are other times where  
you had to set proper boundaries on that level too  
and you've been a single mom  
and so encourage the single moms right now  
who were going after it  
maybe they have one child or six or more  
like we did  
um and or sometimes whether they're married or not  
they feel like they're single  
and so speak to the single moms real quick  
well there was a lot of time  
before I actually was single that I was unequally yoked  
and there were a lot of times  
you felt like the fifth wheel in church

and you didn't know where you fit  
you didn't fit in the singles  
you didn't fit with the groups  
the couples  
so it was difficult times  
but always rely on the Lord  
and what he's promised to you  
but as a single mom  
I think that's one of the hardest jobs you can have  
and so many times I would pace through my house  
and I hold the word of god before him  
and I walk back and forth and say god  
these are your promises  
I will not be denied  
as for me and my house  
we will serve the Lord  
and I would not build down I was like  
I will not be down denied of that  
that's that was my heart's cry  
I wanted my kids saved  
I wanted them whole  
I wanted them real  
it went through hard times  
really hard times and  
and I used to feel guilty of the  
some of those things  
but God in his faithfulness  
rescued all of us actually  
during those hard times  
but I know there were times god grew my food  
he grew money  
a finances that would show up that I never expected  
we were poor  
we didn't have anything back then  
and my kids Learned to work hard cause they had to  
but we Learned  
we're a musical family  
so we sang a lot together  
and I really think that  
was a lot of what held us together in peace  
cause I always played worship music  
I was a worship leader in our church and or  
and a choir director  
and so our whole family is musical  
and so that was a real point in our life  
I think that really held us together  
because the atmosphere would shift when we get it

praise words if  
and start singing yeah  
yeah that's so good mom  
so talk about the role of grandmothers  
you are a grandmother of several grandbabies  
and so things shift right when  
like I mentioned  
when the kids grow up to be adults  
and then they start having babies  
which gives you grandbabies  
and their kids start having babies  
and you've got great grandbabies  
and so what's the role of a grandmother  
and a great grandmother  
let's talk about that  
well when your children grow  
you did ask that question  
about when they grow older and have their own families  
and they're adults now  
letting go sometimes is hard  
I'm a mercy person  
I'm a fixer  
I wanna fix everything  
so it was hard for me  
I had to learn to put boundaries around myself  
otherwise I could be sucked in  
and so as a grandmother is a whole different story  
because you can always send them home  
you can love on them and love on them and love on them  
you know and  
and I don't know  
I have just incredible grandkids that have  
just honor me they  
they come to my house frequently  
I'm never feel alone at all  
and my grandkids are um  
not all saved  
but you do have to come that point  
where you have to let them be on their own  
you love them a lot  
you talk to them about the things of the Lord but you  
you do have to let them learn those things on their own  
you can't preach Adam too much  
they will resist  
but grandparenting is  
is awesome I have 45 in our family here in band  
so we have a lot of people at Christmas time

and things in  
this is a big responsibility  
but prayer is the key  
you love on him  
you pray a lot  
I have several that are wandering right now  
and you just have to learn to love and trust the Lord  
I think one of the biggest things is trusting the Lord  
and what he's promised us  
his promises are ye and amen  
talk about the role of a spiritual mom  
you've been a spiritual mom  
as we mentioned early on to so many people  
talk about the blessing and the role of a spiritual mom  
to people you've come into their lives  
some of it has been our friends and your kids friends  
and others have been from the church or wherever  
um talk about that role  
being a spiritual mom is a responsibility  
you have to really live before the Lord  
in honor of God and all things that you do  
if you're trying to mentor or encourage somebody  
but it's true  
even as the kids would bring their friends home  
I would have opportunities to share the Lord  
even had opportunities and lead them to the Lord  
my boys were in the 80s  
heavy metal  
rock and rollers  
and life was crazy  
band was playing in the garage and  
but I had lots of opportunities living on these kids  
and I think every one of those kids  
most every one of them now serve the Lord  
yeah so you  
you never give up  
you never give up come on  
and so it's  
being a spiritual mom is  
or mentor is  
is an incredible thing  
and it's not just what the older women  
it's with the young  
I've been in women's ministry  
I've been different things  
now I'm leading a new ministry we just started  
but it's it's just doing things to send to the Lord

for what he's called you to  
because his mom  
he is such an awesome God  
he deserves all of  
all of our time and  
and praise for the glory that he gives us  
the blessings are incredible  
that is huge  
the blessings that God gives back to us is amazing  
yeah I don't know how we would have made it without God  
yeah come on  
he has been everything to our family yeah  
and he has provided for us in ways that were miraculous  
yeah he's brought healings to our family  
and different things  
it's it's just been amazing serving god  
it's I'm 80 years old now  
and it's just been an amazing life serving god  
we went through hard times  
but god would  
God was faithful in everything  
and I always tell everybody now  
God won yeah  
that's right  
really won he did  
because he showed himself real in our family  
that was so good  
and those that were hurting and those that were astray  
and so he's answered so many prayers  
he's a faithful God wow mom  
what would you say or pray for prophesy over moms today  
well I'm huge on the promises of God  
because they're yay and amen  
and I say that again  
that I would say  
do not neglect the promises of god  
they are yours from salvation come on  
they were given to you as a gift  
you do not have to earn them  
there's over 8,000 promises in the book  
the Bible that god has given to all of us to glean from  
yeah promise  
and those promises I hung on to for my children  
the word of god  
I hung on to my children  
and for moms that have children  
I know that there has to be

some moms out there that are children are wondering  
if you have a pen

write this down

because this is scripture I hung on to

1st John 5:14 and 15

and this is a confidence that we have in him

that if we ask anything

anything according to his will

we know that he hears us

and if we know that he hears us

we have the petitions that we desire him

there's wow

you can take that to the bank

yeah because there's another scripture that says

it's his will that none should perish

yeah so when you pray for your kids salvation

God will answer your prayers

yes he did for me

he will for you yes

and I I would just

declare to you now that god is a faithful god

he always wins

just trust him

trust him with it

don't get anxious

be anxious for nothing

but with prayer and supplication

let your request be made known to him

go to him he's your best friend

wow and I would say everything you do

trust the Lord in all things

because he truly is your best friend

he can do all things

and you can too

through Christ

that strengthens you

yes that's so good

all right well

let's pray and bless the moms

Father we just pray in Jesus name

that today moms would feel the honor of God

those who wanna be moms

those who are spiritual moms

those who are natural parents

moms and grandmothers and great grandmothers

God we bless them right now in Jesus name

and we know

that you are whistling and gathering your women  
with a fresh  
new anointing all over the world right now  
and so we bless what you're doing  
and we say to the women  
let them arise  
father we just thank you  
that we say there's a place for them in society  
there's a place for them in the church  
there's a place for them  
and we as sons  
um husbands  
um men we see you  
we see what you're doing  
and you are making a difference  
whether you know it or not  
so today we bless you today  
and like my mom said  
you stand firm on the word of God  
you stand firm on the promises of God  
and God will break through  
he will get the last word  
and it is his word that we stand on  
so we bless you this day with a fierceness  
with a triumph  
in your spirit  
an awareness  
an awakening of a triumph mindset  
in your spirit today  
and moms we just thank you  
we thank you for holding a line  
we thank you for holding the standard  
we say we're with you  
continue to stand for your kids and grandkids  
for your household  
continue we bless you  
in the name of Jesus amen  
amen and amen  
and amen all right  
we love you  
bless you guys  
Happy Mother's Day
