

Title: We Are The Remedy Awakening

Speaker: Steven Springer

NOTE: The following transcripts were automatically generated, please excuse any mistakes

you know it's an honor and a blessing to be what
in what God's doing
actually in this season
in this hour you know
part of even what I was sensing and feeling is that
you know when
when the when the gongs of awakening begin to ring
God said that there's an incredible harvest that's
coming in him
you know with it
even when I
when I think about the harvest there's
there's a dimension of harvest of souls
but what God is doing in this season
he's actually awakening his sons and daughters
that we become ones that literally become
the remedy for what God wants to do in the planet
you know even just the
the quakings
and shakings that are happening in the earth
I mean even when we look around and watch the news
and we just even listen to what's going on
within cities and different nations
god is doing something so special and new
and I think sometimes
we get caught up in the midst of what's happening
even in the
on the dark side of things
rather than actually fixing our gaze
upon the one that has eyes of fire
you know what
I think that's part of it
too is that
that god really is recalibrating a

people in this day and this hour
that we once again
become people of first love
because what happens that
when we really begin to understand
like the fullness of
of God's amazing love
and his desire and his love for people
you know that none should perish
I mean that was his whole reason he sent his son right
you know and I
and I think about that is that
there's this dimension of love that's being unlocked in
the hearts of his sons and daughters in this hour
because part of it is
there's this invitation into the deeper things
nothing that really
god wants to take us deep
because when we go deep
we begin to really plummet and
and explore and
and allow just the reality of the depth of his love
all of a sudden
to fill and flood us
we begin to become unlocked
so that his kingdom can come
and you know I was
I was just you know
pondering other day
just you know
just how good god is
you know and I think that
even to a time
even in my own life we were
we were in this journey
and you know
we had this evangelistic band
and we were out traveling everywhere
and people were getting saved every week
healings signs

wonders and miracles
but then there was this simple
little whisper that happened one day
I was listening to this message to a guest
a guest speaker that had come to our church
that we were going to at the time
and he just asked this one simple question
he goes who's at your finish line
and I thought
who's at your finish line
and then he goes on to say goes
is Jesus your finish line
or is your influence for Jesus your finish line
and I was like
I was like hit in the heart by the Holy Spirit
you're not in a way to condemn
but what it did is it brought an awakening
and I think about even
you know in Zachary chapter 4
you know I wasn't
he's having this conversation
and all of a sudden in verse 1
it says this
and now the angel who talked with me came back
and he awakened me
as a man who was awakened out of sleep
and that's what I felt
as all of a sudden
there was this reality within me that was awakened
going wait a minute I mean
I've been doing the second commandment very very well
but this reality of who's really my finish line
I had to be honest with myself
that even as the Holy Spirit
begin to whisper into those deeper parts in my inner
my being he said
I love you so much
and I really want you to understand my love
and I would say right now
that Jesus is not your finish line

you've been doing amazing things for my kingdom
I wanna take you into the deeper place
and I believe that
that's an invitation that God is releasing in this hour
to sons and daughters
that there really is this awakening sound
but with it too
is that we need to become aware
that there's so much more
of his love and his heart that he wants to one
display in and through us
but then us
us actually being honest with ourselves saying
you know what
I just need a feast at this table
I need to allow the reality of first love
and when we say first love it's
it's the simple commandment that Jesus
even we see in Matthew 22 right
it says that you know
and they were trying to stump him
you know teacher
what's the first and greatest commandment
and he just said
you know it's like this
you should love the Lord
your God with all your heart
with all your soul
with all your mind
with all your strength
and then he goes on to say
and you know
the second is like it
that you should love your neighbor as yourself
and actually honestly
there's actually three commandments in that one
it's we love God with everything that we are
and then what happens is that when we're
when we're allowing that love just to bubble
and beam forth out of us

all of a sudden
we're awakened that hey
we're not a mistake
we may make mistakes
but we certainly aren't a mistake
I've been created
informed in fashion
in his image
so that we can bring about the greatest harvest
the planet's ever seen
but what that
all of a sudden
we begin to allow just the truth of who he says we are
unlock the truth of our true
supernatural identity
so that we can love our neighbors as ourselves
and I think that that's part of
is that really
for us to be able to effectively love our neighbors
is that we really need to allow just that overflowing
flooding of his perfect love to
infiltrate and inhabit our entire being
and that's what God's doing in this south
that's part of the awakening that he's doing
and you know
again many times
you know we can focus just on the harvest of souls
but what if God was actually harvesting hearts
his sons and daughters
that you know
are already his
what if the harvest in that was actually this reality
of an awakening that
all of a sudden
causes a revival
and then with the
with the awakening and revival
what happens out of that
all of a sudden
we're being reformed and refashioned into his image

that transformed as it were
from glory to glory
into his image
I know what happens is that
we get to be the Transformers
the ones that transform nations
with his love
his Grace and his power
and I'm really excited for what
even what we've been seeing even this
this past week
uh at at our
at our local church
uh that we gather here
actually in the Dallas
Fort Worth area
I mean we travel over the planet but
but this weekend
there was a woman that came forth
65% of her hearing was was gone
and we begin to pray for her
and as we decree
declared the the
the matter of fact
reality that Jesus is the same yesterday
today and forever
that he is healer
it's not something he does is who he is
all of a sudden
her ear opened up
and like she had to wear hearing aids
and it was it was
it was excruciating also
he's got ah
that's so loud
and she pulls the hearing aids out
and god literally restored this woman's hearing
and we were seeing this actually in many places
even just a few weeks back
we were at another

another conference that I was speaking at
we had three different
people that actually came up
and had hearing completely restored
and there back
there was this one girl
that she was actually a worship leader
and she had lost um
she only had 20% of her hearing left in her left ear
and she was like you know
as she was kind of sharing her story
she began to whip she goes
I used to be a worship
and I can't even worship anymore
because it's so hard to hear
even when I have headphones on
or I need to hear
monitoring it
it's so hard
because it's like an echo inside my head
and we decreed and declared healing
into her ear
the same thing
the ear popped open
hundred percent
there was another woman that we prayed for same thing
she only had 30% of her hearing left
in her left ear
it was interesting
we actually
had a word of knowledge
for left ears
in that particular
we had three different
people that had left
ears that were completely healed
and so this woman
ever praying
and decreeing
and declaring

and releasing that healing
all of a sudden
her ear is opened up
she's like oh my gosh
I can hear better
out of this ear
now that I can
out of my other
eye so well
let's pray for that one too
and then god
equals it all
out you know
that's what I so love about
the Lord is that
he is the author and
the finisher
you know what I mean
when he does something
he completes it
and you know
it's not always in
our time you know
sometimes it's like
you know we
we sometimes want
the hamburger helper
the microwave
thing works
all right now
now now now
now when to me
everything about this journey with the Lord
whether that's
seeing signs
wonders and miracles
whether that's
even seeing a prophetic word come to pass
all of this
really is an invitation

into the presence of god
and I think that again
it goes back to what we
what we started this
conversation about
is that we need to
understand how amazing
his love is
and not just
for the world
but how amazing it is for us
as individuals
because when we
allow the truth of that love to penetrate
our very being
I'm telling you
that's where
all of a sudden
the rivers of
living water begin to burst forth
and all of a sudden
the world around us
gets ignited
because it's been
apprehended by
the kindness of god
flowing in and through you and me
and so I'm so
excited for what
the lord's doing
this hour and
you know it's
it's interesting
too because
what we've been seeing too
is that the the
this window of time
at least what he's been showing us
it's the season
for the prodigals to come home

and so even
for those of
you that have been
even you know
praying and
crying out for God to
to to rescue that
that son or that daughter
that has wandered
the stray and gone
off and living
the fast life
and fast living
and just running from
the things of God
I'm telling you
this is the season where
God is gonna begin to bring those ones home
and I'm telling you
it's not a time to judge
it's a time to
embrace you know
just like the father
that even as he
saw his son
a long way off
and he ran to meet the son
not to kick them down
and condemn
but literally
to embrace and say oh
I'm so glad
you're home
my intercession's been
heard in fact
get the ring
get the robe
this one's royalty
this one is
is made to rule

and rain in heavenly places
and when we begin to celebrate
rather than judge
I'm telling you
it's gonna be so amazing
because all of a sudden
it's the kindness of God
as we know is
that actually
is what leads
people to repentance
and that if we
can demonstrate
just the kindness of God
in a really powerful
amazing way
and that really
is nothing more than just
loving people
right where they're at
and the point is
is that god doesn't want
him to stay
where they're at
but it's his love
that will bring
to that place where
all of a sudden they go
ah duh of course
I need to change
where that I think
that's as part of
the beauty of repentance
yes there's
yes there's
the godly sorrow
dimension but
with it too
there's also
that component where

the kindness
all of a sudden
when we when we
when we get
flooded and
overflowing
with the presence of god
all of a sudden
Holy Spirit
begins to wash
the way that we think
he begins to
renew our heart
he begins to renew
our mind and then
all of a sudden
the reality is that
the ones that were
wandered astray
and didn't really know god
in the way of
knowing him
in the depth of their being
with the fullness of their heart
all of a sudden
they realize
I have the mind of Christ
I can think like god
because see
the reality is that every one of us has been formed
and fashioned in his image you know
and I think that even when we approach the world
and those that even might be our greatest enemies
that if we see them as ones that have been formed
and fashioned in the image of our father
I'm telling you
it changes your perspective
it changes our perspective
and part of that too is a
is that you know

in Ephesians 2
you know where Paul says
you know that we are seated with him in heavenly places
in Christ and that when we assume that royal position
where we are seated with him in those heavenly places
and we begin to look at the world
we begin to look at the landscape of the earth
and we begin to look the human heart
through the father's perspective
I'm telling you
there's a compassion and a Grace
that then also begins to flood our hearts
and I think that that's really what God wants to do
and even now
I just declare that you would just be apprehended by
a fresh wave of this perfect love
and that from that
that wave of this perfect love
that there would be a renewing and a restoring even the
the joy of your salvation
you know sometimes we
we get so caught up in the hub
bub the busy
busy busy Martha Martha
Martha mindset
doing all the stuff that we
we sometimes forget
the components of just the joy of his salvation
I mean think about when you were first saved
I mean the the zeal
the excitement the fire
the child likeness
god wants to restore that to his sons and daughters
because it's from that place
that the world is gonna see something different
so anti religious and so beautiful and pure
because that's what the world's trying out
the world wants to see a kingdom
the world wants to see a savior that
isn't created in man's image

but actually
sees a people that's been created in God's image
that we become ones that represent
the beauty of who God is
the beauty of his heart
the beauty of his love
the beauty of his power
the beauty of his healing
and you know
when we think about even salvation
because when we look at even the Greek word
um that we see in salvation
and many of you might know this but it's
it's a Greek word sozo
and so often we think
salvation woo
I'm saying fire insurance
I'm going to heaven
well that's part of it
but to me it's way more than that
that's salvation
when it comes into our spirit
we're born again
and God wants to release a born again dimension
all across this planet
but with it too
there's this reality that the soul itself and you know
me personally
you know I I lived a crazy life before I met Christ
and I opened all kinds of doors to demonic stuff
and you know
just things that just were so contrary to the holiness
and the Grace and the goodness that god actually
had in store for me as my destiny
but it was from that awakening
in that reality
I realized like
wait a minute
there's things in my heart
or I should say

more than anything
more in the depths of my soul and in
in my mind and my will
and my emotions
and in the way that I think sometimes
all of that needed to be recalibrated
just like my spirit was when I was born again
and I think about even the season
I went through a
a great season of inner healing and deliverance
and part of that healing was just
my heart just being awakened
and those those
those barriers being removed that
actually kept me from experiencing and encountering
the deeper depths of God's love
I believe that's part of it too
is that god really is moving in the earth right now
that even as he moves
even within the church
you know the shakings that we're experiencing
the shakings that we're about to experience
part of it is
he wants to shake the hell out of our hearts
so that we can see all that we were created for
and so embrace the process
see to me and that's the beauty of two is that
you know god
he takes us on this journey right
and he said that he will always be with us
he will never leave us or forsake us
any moment it feels like
those times like god
where are you
you know he's right there
longing to see your heart healed
longing to see
you walk into the fullness of your destiny
