

DIGITAL SAFETY

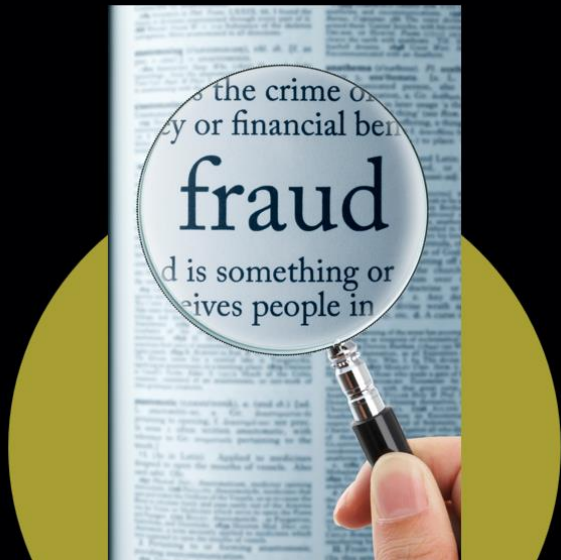

AND PROTECTION

WELCOME TO DIGITAL SAFETY 101

Greetings, everyone! We're thrilled to have you join us for this crucial session on digital safety. In today's interconnected world, where the virtual and the real seamlessly converge, it's more important than ever to be vigilant and informed about potential risks. We've outlined ten key areas that demand our attention, and we'll navigate through them to empower you with the knowledge needed to protect yourself in the digital realm.

QUOTES TODAY

***"Fraud and deceit are
anxious for your money. Be
informed and prudent."***

~John Andreas [Widtsoe](#)

2

EMAIL SAFETY

1. Be cautious of fraudulent and deceptive emails.
2. Don't open suspicious emails.
3. Exercise caution when dealing with emails.
4. Check emails carefully before opening them.
5. Beware of emails asking to make purchases.

3 CHECKS

Reputable Places Only

Store in a Secure Location

Checks are easily duplicated & sold on the dark web

4
