# **Family Priorities**

August 6, 2017

### **Message Summary**

Whether we care to admit it or not, we all have a family. Some of us have great family relationships, and for others pain can be the constant when it comes to family. None of our families are perfect. We all have our struggles and challenges. But it is when we prioritize our investment in our families that we have the opportunity for the greatest impact for generations to come. This week we looked at in importance of family priorities and how we can invest for Christ in our family relationships.

### **Consider This**

Looking at current TV and Movie portrayals, how would you define a family? According to these cultural sources, what does it mean to be in a family? What are the priorities these families exhibit?

Do you believe this to be an accurate description of today's families? Why or Why Not?

What would you say your families top 3 priorities are today?

#### Read Colossians 3:12-21

- 1. Looking at verse 12, what are the elements that Paul is imploring us to make evident in our lives? Why would these be vital to our family life?
- 2. Why is forgiveness so important?
- 3. Do you find it more difficult to forgive those in your family? Why or Why not?
- 4. Do you prioritize spiritual teaching in your family? What does that look like on a day to day basis?
- 5. According to verse 17, how does Paul encourage us to interact with our world?
- 6. How can you have this mindset within your family?
- 7. Verses 18-21 give specific instruction to various roles within our families. Which role do you most closely identify with in your family? How do you live out this instruction in your life?
- 8. What is one thing that you need to stop/start to fulfil your family role?

### Read 2 Timothy 2:2

9. Life is not to be done in isolation. Paul had invested in Timothy, with a community of witnesses around. Who is investing in you, so that you know how to invest in your families?

- 10. How does Paul encourage a "generational" approach to investing in the lives of others?
- 11. How can we create this generational investment in our families?
- 12. What is one thing you can do to be more intentional in your investment in your family?

## **Action Steps:**

### Your Family Priorities

Your family is more than just you. This week set aside time to speak with your family and come up with at least 3 priorities for your family. These are the things that you are going to invest your time, efforts, and resources as a family. If these priorities are not currently evident in your family life, come up with a plan to integrate them. Start with one and see where that takes you.
