

What Did We Learn From the Book of Habakkuk?

1. It is okay to struggle with doubt and ask God honest questions
2. God is often doing His most profound work when it looks like He is doing nothing
3. When it comes to difficult circumstances God doesn't need your help, He wants your trust
4. Remember the importance of perspective (its imperative that yours be accurate)
5. You won't see what God is doing unless you are willing to wait on Him
6. God will sometimes use ungodly agents to reprove or correct His children
7. God is sovereign; He can use whomever and whatever He pleases to accomplish His will and purposes
8. God confronts us when we forget Him in our successes
9. Having occasional doubts and honest questions doesn't make you a bad Christian
10. In a crisis of faith choose to embrace God rather than move away from Him
11. Choosing faith in the midst of difficulties changes everything!
12. Keep yourself free from greed (it always leads to a reversal of fortune and self-destruction)
13. Be content with what you have (covetousness always leads to emptiness and regrets)
14. Guard your purity (immorality always leads to shame; and what you've done to others ends up coming back on you)
15. Avoid idolatry in all its forms (it always brings divine judgment)
16. If you want your faith to go from troubled to triumphant:
 - Request of the Lord through prayer
 - Remember His past deeds
 - Rest in Him while you are waiting patiently
 - Rejoice in Him by faith
 - Rely on His strength in the meantime
