

# Outward Group Discussion Guide

January 4, 2026 (Salem)

## SUMMARY

This sermon challenges believers to examine whether they possess an authentic, personal faith in Christ or merely a borrowed faith from parents, church, friends, or influencers. Using Philippians 3:12 as the foundation, the pastor emphasizes that genuine faith requires actively "pressing on" - moving energetically and purposefully toward knowing Christ personally and powerfully. The message confronts the reality that many Christians experience no discernible spiritual growth year after year because their faith remains secondhand rather than intrinsic. True faith involves knowing Christ intimately, experiencing the power of His resurrection, and sharing in His sufferings by crucifying the flesh. The ultimate motivation for this pursuit is the foundational truth that Christ has already made believers His own through His blood - salvation is complete, and the pressing on is a response to what has already been accomplished, not an effort to earn it.
