

Main Point

If both a negative and positive attitude can lead us astray in our faith, we must have a positional attitude, one that is fixed on Christ

A negative attitude can quickly turn our **faithfulness** into **faithlessness**

-People should be able to see our faith by the way we live our lives, so we must be careful not to hide it with a negative attitude.

We should be cautious of a positive attitude that comes from **dependency** on ourselves or **influences** that surround us

-The only way we have a true positive attitude is when we fully submit to God's authority in our lives

A **positional** attitude in Christ simply means that we have **rest** in Him

-We keep ourselves fixed on Christ when we continuously seek after Him

1 Chronicles 16:11

Look to the Lord and His strength, seek His face always.
