

Victorious Living

Joshua 6

Victory is not
sustained by effort; it's
sustained by
surrender.

God's strategies often seem strange because they're designed to minimize man and maximize His glory.

The greatest “strange strategy” of all time is the cross. God becoming man, dying for sinners, and rising again to offer grace freely.

True worship isn't
about manipulating
God to do our will; it's
about submitting our
will to His.

Victory will not come
through our strategy
but through God's
authority.

Whether they are against sin, fear, addiction, or discouragement, our battles are not about achieving victory, but walking in the victory Christ has already secured.
