# It Is Finished

John 19:23-37

Faith is the work of God opening our eyes to His truth.

The faith we profess is informed by the Word of God, and in His Word we find reasons to believe in Jesus.

The Bible moves salvation beyond the political and physical and anchors it in the spiritual.

Jesus is a real man who dies a real death.

The crucifixion of Jesus Christ is a real, historical event, but it can't be consigned to dusty shelves in the back of a library or cobwebbed corners or our minds.

Jesus's work as sin bearer and Savior is finished when he lays down his life on the cross.

The moment you stop believing Jesus finished salvation is the moment you'll start working for your salvation.

As a Christian, your standing before him has been settled by the blood-soaked sacrifice of Jesus.
