# INSTRUCTIONS ON INSTALLING THE FLC APP

Here is what you need to know about accessing and using the FLC mobile application:

1. The application is now called "The Church App" in the app store. If you search for that application and install it to your device, you will be prompted with the following things:
  - a. Upon initially opening the app, a page stating "Welcome to The Church App!" will be displayed. Press the blue "Let's Go" button.
  - b. The next page will display "Find your church." Press the blue "Enable Location" button. Your device may also show a popup message requesting to use your location, which you should allow.
  - c. The next page will display "Open ?" Press the blue "Open" button.
    - i. If this button does not work, press the "Find a different church" button below it.
    - ii. You will see the "FLC Brookings App." Select this option.
2. These steps will get you set up with the FLC App. You will not need to repeat these steps after completing them once.
3. Here's why this has changed: many people are using an old version of the application that is no longer supported by Subsplash. Subsplash now uses The Church App as its host application for their customers. The old FLC application that some people may still be using doesn't exist on the app store anymore because of this.
