Psalms 139

July 19, 2026 | Pastor Christian Vargus

STUDY QUESTIONS

- Have you ever tried using a tool or product before understanding what it was designed to do? Why is it important to know what something is for before trying to use or evaluate it?
- What has been your experience using the Psalms in your prayer life? Personal and corporate worship? Conversations with others?
- How does our faith in Christ shape our understanding of the great promises found in this psalm?
- What do you make of the “difficult,” or imprecatory, elements of the Psalms? What do they reveal about God’s nature and character?
- What “anxious thoughts” do you need to lift up to God in prayer? What sins (“hurtful ways”) do you need to confess? Ask God to try you and to lead you in “the everlasting way.”
