15. "What comes into our minds when we think about God is the most important thing about us. For this reason the gravest question before the Church is always God Himself, and the most important fact about any man is not what he at a given time may say or do, but what he in his deep heart conceives God to be like. We tend by a secret law of the soul to move toward our mental image of God. This is true not only of the individual Christian, but of the company of Christians that composes the Church. Always the most revealing thing about the Church is her idea of God."
-A.W. Tozer, *The Knowledge of the Holy*
