APPLICATION

[4] How do we discover what assignment Jesus has given us in building His Church? If you can, share about a time you felt you really made a difference in one of your “God” assignments.

[5] What types of fears keep us from stepping out in faith when Jesus gives us an opportunity to use our gifts and talents? Are there other things that keep us from joining Jesus on His mission to impact the world?

[6] How does knowing that Jesus is with us and the church will equip and support us in our kingdom assignment encourage us to keep going when our assignment is tested? Share an example with your LifeGroup of when you were tested and “hung in there” until you had the victory.

REFLECTION

[7] Sometimes as Christians we can have a consumer mindset towards the church. When we accept Christ as our savior we are no longer a “customer” to be attracted to Jesus; we are now working for God in building His kingdom. How does this reality impact your attitude towards church and your role within it?
