4. Do you agree that building quality relationship is important to elevating your financial situation? Why or why not? Read 1 Corinthians 15:33. What is the best financial advice you have received from someone? What was the worst?

5. Read Philippians 4:11-13. Do you believe that there will be seasons of abundance and scarcity that happen in our lives? How do we learn contentment in “whatever the circumstance”?

6. Dave Ramsey says, “You will never win with money until you learn how to give.” Why is our learning to give generously so important to God?

### **APPLICATION**

7. Regarding the 6 principles taught on elevating our financial situation which two do you need to focus the most on right now: get on a budget, get out of debt, build quality relationships, save and invest, give generously, or pray over your finances? What goals do you need to set in these areas?

8. Read Jeremiah 29:11-14. Pastor Chris pointed out that the Israelites had put themselves in a dark chapter because of the choices they made. However, God in the middle of this dark chapter promised to restore them and their fortunes. How does the thought I got myself into this financial situation and I have got to solely get myself out of it stand up in light of this scripture? Thank God because we are not in this alone and we are not on our own!!
