---

God gave us the ability to speak words. Good words! Powerful words! Words of His from His Word speak to us and we should speak them into others' lives. His words also change us from the inside out. They give us His life. These words can be and should be among others, words of guidance and wisdom, strength and encouragement, protection and instruction, prayers and teachings, warnings and patience, authority, and power, blessing and peace, love and steadfastness. As we speak these words of life to others, they will be changed too. To speak His words effectively we must know and believe that the Bible is God's Holy Word. We must believe that the Holy Spirit knows the mind of God and has inspired His Word. **2nd Timothy 3:16-17, 2nd Peter 1:20-21.** His words will keep us on the straight and narrow path in this life. **Matthew 7:13-14.** They will help us and guide us no matter what happens to us in this life. These words of His will establish unconditional love and unity and His life among us as a body of believers.

---

**Psalm 119:105** His Word gives us and others guidance and wisdom for our walk with Him in this life.

**106** His Words will give us and our brothers and sisters in the Lord strength and encouragement as we follow and do them.

**107** His Word gives us and believers protection and instruction in trials and tribulations.

**108** We pray with our mouths His words and they teach us in every situation. As our prayers are answered, we testify to others what His Word has done in our lives and for our faith.

**109** His words give us patience as we endure and warnings not to forget His Law and commands as we face these trials. How we endured and came through situations by His promises in His Word gives Him glory. We will shine in this world before others.

**110** We exercise His authority and His power over our enemies and the devil when we speak His Word. His words will help us and others to avoid and overcome the snares of our enemies.

**111** The inheritance of His Word is a great blessing, and it gives us great peace in this life. We have a great inheritance in Jesus which gives all of us His peace. Jesus is the Prince of Peace!

**112** We turn our heart to His Word because we love Him and His Word. We are steadfast in our love for Him and others as we are steadfast in following His Word in our life.

**John 6:63. 2nd Corinthians 3:6. Ephesians 6:11,17.** We are not adequate in ourselves. But we are adequate when we speak His Word by the Holy Spirit.
