The Principle of Vision

A vision is a clear picture of what the leader sees his people being or doing. From that clear picture the leader then plans how that vision will become a reality.

Proverbs 29:18 “Where there is no revelation,
the people cast off restraint; But happy is he
who keeps the law.”

10 Vision Ideas to Help You Get Started

1. It must excite you if it's going to excite the people.
2. Your vision must solve a problem.
3. Your vision must have a sense of urgency.
4. Vision travels through people.
5. Vision brings clarity, if everything is important, nothing is important.
6. Will the vision outlast you?
7. If prayer isn't necessary to accomplish the vision it is too small.
8. "People listen with their eyes." Ravi Zacharias
People must see with their ears.
9. Clear, do you know where you are going?
