

## **Multiplication**

The goal of Life Groups is to grow and multiply. Throughout the life cycle of different Life Groups, multiplication will vary. This is the goal and should be celebrated by everyone. This means that Matthew 28 is being carried out in the Life Groups. A Group that has been meeting for years and has never multiplied should bring into question as to whether they are functioning as a Life Group.

Multiplying groups should always be done in a healthy way. Before multiplying, the Life Group should pray over those that are starting another group and commission them into their ministry.

## **New Life Group Structure**

The new Life Group can be made up of anywhere from 3-7 people.

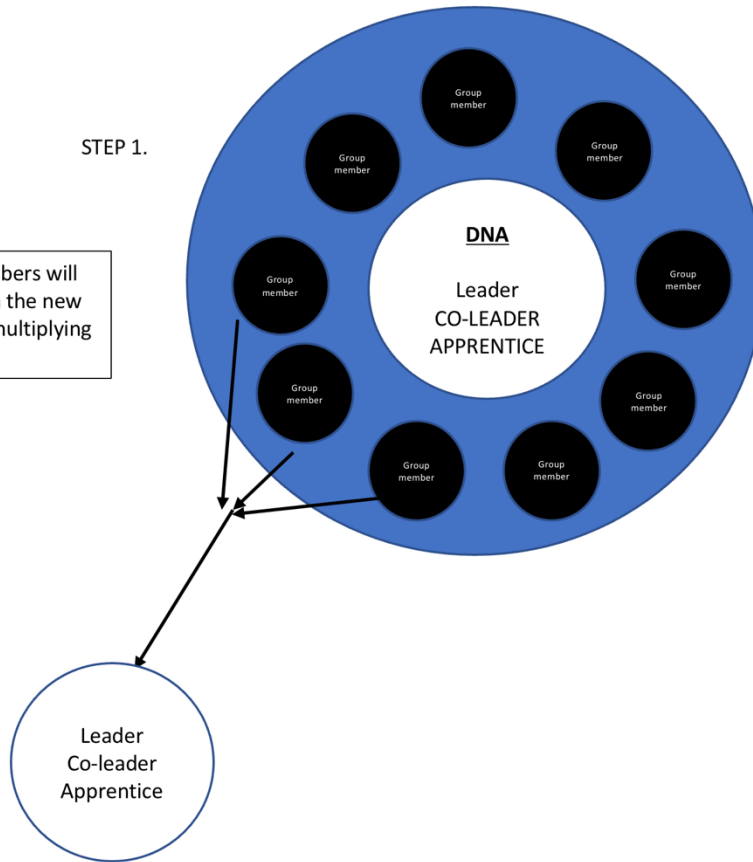

- 3 group members will move into the leadership role of the new Life Group and form a DNA.

- Some other members may move to start the new Life Group or it could grow out of the DNA.

In the beginning it may be good for the new Life Group to eat serve with the Life Group that they originated from until they achieve a good foundation.

STEP 1.

3 Group members will Move to form the new DNA for the multiplying Life Group.

Step 2.
