SOME MYTHS ABOUT FAITH AND SCIENCE

- 1. Faith is ANTI-INTELLECTUAL.**
- 2. Science is OBJECTIVE while faith is SUBJECTIVE.**
- 3. Science ANSWERS QUESTIONS that faith cannot.**
- 4. If I believe in SCIENCE, I can't believe in GOD.**

**The Bottom Line: Faith and science are
not ENEMIES but FRIENDS.**

For since the creation of the world God's invisible qualities – his eternal power and divine nature – have been clearly seen, being understood from what has been made, so that people are without excuse.²¹ For although they knew God, they neither glorified him as God nor gave thanks to him, but their thinking became futile and their foolish hearts were darkened. – Romans 1:20-21

WHAT IS FAITH?

- Faith is not BLIND.

Now faith is being sure of what we hope for and certain of what we do not see. – Hebrews 11:1

- Faith is a CHOICE to trust.

"But if you can do anything, take pity on us and help us."

²³ "If you can?" said Jesus. "Everything is possible for one who believes." ²⁴ Immediately the boy's father exclaimed, "I do believe; help me overcome my unbelief!" – Mark 9:22-24
