

# Bigger than any other influence

---

## SMALL GROUP NOTES

*Tom Shaw, 2015*

### Outline

On Sunday Tom looked at how the writer to the Hebrews was aiming to wean these Jewish Christians off an over allegiance to the influence of Moses. We today can easily fall into the same trap of allowing other things or people to influence us more than Jesus.

It's often a subtle thing. But it needs to be rooted out and then gloriously replaced by a bigger replacement ...Jesus!

Like the people written to, following Jesus can make us feel like we've left much behind and life is tougher than before. However when when He becomes big again and again in our hearts, we find the strength to push forwards.

### Scriptures

Hebrews Ch 3:1-6, 2:17

### Questions for discussion

- 1) Who would you say has a big influence in your life and how does that compare to Jesus' influence?
- 2) How can we grow at 'considering Jesus' in our day-to-day lives?
- 3) What are the coping mechanisms you're aware of in your life and how can you grow in seeing Jesus build your new life with him?
