

Title: "Thinking Biblical thoughts ...about Commitment"

Passage: Luke 10:25-37

Intro paragraph: "There are countless books and resources that have been created to help us be more productive. In a generation that is driven by busyness and getting things done, it is important to remember what God's word says about the priorities in our lives. In order for us to see the opportunities God has placed in front of us, we have to make sure that our vision is free from unnecessary distractions. That means that a true disciple of Christ is intentional about making sure they are free to be obedient."
