

Thinking Biblical Thoughts

“...about God”

Psalm 34

To most people, God is an inference, not a reality. He is a deduction from evidence, but often remains personally unknown. Many believe in the ideal of God without living in actual connection to Him. To apprehend God, we must break the evil habit of ignoring spiritual reality by shifting our interest from the seen to the unseen. We must stop thinking of God away in heaven and discover Him right here right now.
