“Preparation for Battle: A Warrior’s Skills”
Ephesians 4:7-16
Pastor Philip A. Jackson

Within each battle unit, the roles of combat are divided among the soldiers. Each person plays an essential role in the success of their team. In the army of God, believers are given roles (gifts) and responsibilities (ministries) to share the load of spreading the gospel and to develop their fellow believers. In order to conduct effective warfare, the church must be trained, developed, and deployed for the battle.

1. A Comprehensive Work (4:7-10)

2. A Specific Purpose (4:11-12)
