

Diligent Discipleship

2 Timothy 2:1-7

Too often, the christian church defines discipleship as bible study, small groups, or simply going to church. Jesus displays true discipleship in the way he did life with his disciples and taught them how to live the Christian life along the way. True discipleship between Jesus and the disciples started a chain reaction for believers everywhere. We find Paul writing this letter to Timothy, as he encourages the young pastor in the way of diligence, the importance of discipleship, and the significance of discernment.
