Faith Life Family Church Membership Class 1

What Church Membership Is Not

It does not mean that you are automatically born again.

It does not mean you are more of a Christian than those who are non-members

It does not mean that God loves you more than non-members.

It does not mean you have authority over the pastor or over the church.

It does not release you from responsibility; church membership only adds responsibility, such as the giving of your tithes, talents and time.

What Church Membership Is and Its True Purpose

It is to provide fellowship with those of like-precious faith.

It is to demonstrate the power of unity.

It is to help members share the same vision and speak the same thing.
