

Prayer for Generations Connecting

*Thank the Lord for the diversity He has blessed the world with. Thank Him for the wisdom and experience of those who are older than us, and for the energy and enthusiasm of those who are younger. Ask Him to help us always be willing to learn from and love those who may be different from us.

*Pray that the older generations will be patient with the younger generations. Pray that the older generations will have open eyes to see the strengths the younger generations have. And pray that the older generations will be ready and willing to love and mentor the younger generation.

*Pray that the younger generations will be patient with the older generations. Pray that the younger generations will be humble and recognize the wisdom and experience the older generations have to offer. And pray that the younger generations will be willing to love the older generations and accept mentorship from them.

*Pray for connections between the older and younger generations worldwide. Ask God to help us understand each other, recognize similarities, understand differences, and work together to bring His message to the world.

*Pray specifically for relationships between the generations in Praise Fellowship Church. Ask the Lord to help us connect across the age gap and learn from each other. Pray that God will bring older and younger men together, to grow in their relationships with God, and to understand and live out more fully their role as men of the Lord. Pray that the Lord will bring older and younger women together in relationship, to learn from each other and grow in Christ and in fellowship with each other. Pray that God would lead you to build relationships across generations.

Sample Prayer:

Lord, thank you so much for the incredible diversity within mankind. Thank you that we can all learn from each other. Father, thank you for the wisdom and experience of the older generations. Help those who are younger to recognize the fount of knowledge that exists in their elders. Give the younger generation humility to receive wisdom and guidance from those who have already traveled particular roads. And give the younger generation understanding and patience with the older generation.

God, thank you for the energy and enthusiasm of the younger generation. Lord, help the older generation to be motivated, stirred, and encouraged by the younger generation. Give those who are older your eyes to see the strengths that the younger ones bring to the family of God. And help the older generation to be patient and loving with the younger generation.

Lord, thank you for the different generations of people we have at PFC. Father, please bring us together across the generations as a true family in You. Help us to build relationships with those in other generations. Open our eyes to see what we can learn from those in different stages of life. Lord, bring the older men and the younger men together in meaningful relationships, so that they can grow deeper in You with each other. And similarly, Lord, bring the older women and younger women together to learn from each other and build relationships to support each other as they grow in You. Show us how to truly do life together, Father. We ask this in the name of Jesus. Amen.
