1 Corinthians 11-14: Worship That Builds

Sermon: 1 Corinthians 14:26-40

Date: Sunday, March 22, 2026

1. What were some of the specific problems happening during worship in the Corinthian church? How were these issues hindering the church's mission?
2. Paul mentions several elements of worship in verse 26 (hymns, lessons, revelations, tongues, interpretations). Why does he emphasize that "all things be done for building up"? How can we tell if we're using our gifts to build others up versus drawing attention to ourselves? What are some warning signs?
3. **The Lego Illustration:** How does the Lego analogy help you understand the difference between having spiritual gifts and using them in an orderly way? What happens when we have all the right "pieces" but no structure?
