Philippians 1:12-14

“The Advancing Gospel”

Discuss:

1. Open up with prayer and spend time thanking Lord for some of the ways he has been working in your life over the past couple of months.
2. When Paul started his second missionary journey he wanted to go to Asia. Luke records that the Holy Spirit told Paul he was not to preach the gospel in Asia. God finally revealed to Paul in a vision where he wanted him to go. Share with the group about a time where you made plans to do one thing and then God led you in a direction you didn't anticipate?
3. From a human perspective it would seem like Paul's imprisonment would significantly slow down his missionary efforts. However, the result was quite the opposite. Discuss the significance that the Philippian Church played in advancing the gospel. How can you partner with the church for gospel advancement? When thinking through this have the group read through 1 Corinthians 12:12-31.
