

# Have You Come to the Conclusion Yet?

 Date Delivered	June 7, 2026
# Lesson Number	10
 Primary Scripture	Mark 6:30–52
 Speaker	Apostle Tyronne McCreary
 Summary	In unprecedented times, the battle is often over interpretation; right conclusions come from including Jesus in the equation—kingdom arithmetic turns lack into abundance when hearts remain tender.

## HIM: The Gospel of Christ According to Mark – Lesson Ten: Have You Come to the Conclusion Yet?

**Date:** June 7, 2026

**Primary Text:** Mark 6:30–52

### Introduction

### Opening Thought

We are moving into unprecedented times that will require unprecedented faith.

## Question

Have you come to the conclusion yet?

## Key Thought

The issue is not whether we are drawing conclusions. The issue is whether we are drawing the right conclusions.

---

# I. Understanding Conclusions

## What Is a Conclusion?

**Definition:** A conclusion is a belief, conviction, or judgment reached after considering evidence, experiences, and information.

**Key Thought:** What you conclude determines what you do.

---

# II. The Process of Drawing Conclusions

1. Observation - What do I see?
  2. Interpretation - What does this mean?
  3. Evaluation - How should I understand this?
  4. Conclusion - What do I believe is true?
  5. Action - How will I respond?
- 

# III. The Disciples and Jesus Had the Same Facts

- **The disciples concluded:** "Send them away."
- **Jesus concluded:** "You give them something to eat."

**Notice:** Same facts. Different conclusions.

---

# IV. The Battle Is Over Interpretation

**Key Thought:** The quality of your conclusion depends upon the quality of your interpretation.

A wrong conclusion can:

- Turn a testimony into a trauma
  - Turn a lesson into a loss
  - Turn a miracle into a missed revelation
- 

## V. Miracles Are Evidence

When God performs a miracle, He is not just solving a problem, He is providing evidence.

**Question:** What conclusion are we drawing from the evidence?

---

## VI. The Message of the Loaves

The feeding of the five thousand revealed:

- His provision
- His authority
- His identity
- His sufficiency

**Point:** The miracle was never just about bread. It was about Jesus.

---

## VII. The Real Treasure

The miracle is temporary.

The revelation is transformative.

You can experience provision and still miss the Provider.

---

## VIII. The Problem Was Not a Lack of Evidence

**Scripture:** Mark 6:52

“They had not understood about the loaves...”

**Thought:** The disciples had experiences but had not yet drawn the proper conclusion.

**The issue was:** not lack of evidence, but lack of understanding.

---

## IX. The Battle Is Often Over Meaning

**Point:** The event is often not the problem. The interpretation becomes the battlefield.

**The enemy wants you to conclude:**

- God is absent
- God has forgotten you
- God is unreliable

**The Holy Spirit wants you to conclude:**

- God is faithful
  - God is present
  - God is forming you
  - God is revealing Himself
- 

## X. God, It Doesn't Add Up

**The Disciples' Calculation**

Five loaves + two fish = not enough

**Their Problem Was Not Their Count**

The numbers were accurate.

The conclusion was wrong.

Because they stopped the equation with themselves.

---

## XI. The Limitation of Natural Evaluation

The disciples measured by:

- Inventory
- Resources
- Finances
- Capabilities

What they left out was Jesus.

---

## XII. Key Kingdom Principle

The greatest shortage in the story was not bread.

It was the disciples' ability to see beyond their limitations.

---

## XIII. Kingdom Arithmetic Is Different

### Natural Arithmetic

5 loaves + 2 fish = not enough

### Kingdom Arithmetic

5 loaves + 2 fish + Jesus = abundance

**Point:** Whenever God gives an assignment, do not do the math without Him.

---

## XIV. Kingdom Arithmetic Throughout Scripture

- Moses
  - Gideon
  - The widow's oil
  - David and Goliath
- 

## XV. The Lesson Jesus Was Teaching

**Scripture:** Mark 6:7–13

Jesus sent the disciples out:

1. Without money
2. Without bread
3. Without extra provisions

**His point:** Their effectiveness was not determined by what they carried, but by who carried them.

---

## XVI. Measurement Systems Shape Expectation

The disciples measured according to:

- Resources
- Possessions
- Limitations

Jesus measured according to:

- God's provision
- God's purpose
- God's kingdom

**Key Point:** Whatever measurement system you adopt determines the size of your expectation.

---

## XVII. The Danger of a Hardened Heart

**Scripture:** Mark 6:52

"They had not understood about the loaves because their heart was hardened."

**Greek Word:** pōroō

**Meaning:** dull, insensitive, slow to perceive, spiritually unresponsive

## What a hardened heart does

- Obscures vision
  - Clouds perspective
  - Distorts interpretation
  - Limits expectation
  - Magnifies obstacles
  - Minimizes God's activity
- 

## XVIII. A Hardened Heart Measures Incorrectly

The disciples measured: the crowd, the food, the cost

But failed to measure: the authority of Jesus, the sufficiency of Jesus, and the presence of Jesus

---

## XIX. Closing Thought: Have You Come to the Conclusion Yet?

**Key Thought:** Observation does not guarantee understanding. Experience does not guarantee revelation. Miracles do not guarantee maturity.

---

## Key Scriptures to Meditate and Memorize

- Mark 6:52
- 

## Final Conclusion

When our hearts remain tender before God, we begin to:

1. See clearly
2. Measure correctly
3. Interpret properly
4. Arrive at the right conclusion

**And what is that conclusion?** If Jesus is in the equation, there is always more than enough.
