

Weekly MISSION FOCUS

MISSION PARTNER OF THE WEEK

Thank you for praying about the house! God is supplying peace. I am most grateful for that. We decided to move forward on the house that's not far from us. It is in the direction of the school though so it will shave off time there.

There is a verbal agreement with the landlord and our logistics but still working on the written contract. We are looking to have the contract start Oct 1 and move in 3rd week of Oct. He needs to move out his stuff that he was hoping we would want to use. 😊 We need to get air cons installed downstairs, the master, and office.

They are going to install bars on the windows and finish out the kitchen (they were waiting on a piece from IKEA). We are slammed in Nov so we really need to get moved in Oct. (We thought we had through Dec but found out last weekend that it's just til Nov 30.)

It is a bit closer to school, is brand new (though basic), and we really like the landlord and his wife.
