## Restoration Considerations

System	Notes
Internet	Contact local vendor/IT. No progress, contact ESF2 for SA. Consider priority circuit restoration. Consider FirstNet deployable
Viper	Contact PSAP as first line, then TSU NOC
Telephone	Contact VH IT if internal VOIP issue, COMU otherwise
Satellite	Contact needs to be made with Ground Control Tech support
Auxcomm	Contact NC ESF2 and direct issues to AUXC POC

**Electromagnetic Pulse (EMP) event (High altitude burst)**  
*If EMP is suspected, first step is to evaluate electronic equipment still functioning. Evaluate all RF equipment including vehicles and AM/FM radios. Satellite and HF communications may be inoperable for 24-48 hours. Consider AM/FM radio for intel if VIPER/LMR down.*
