

The inclusion of gender in God's design indicates:

1. Complementary relationships best tell the story of who He is.
2. The way He relates to us is best seen in relationship between two genders.

Disclaimers:

1. Satan's plans always revolve around perversion of God's design.
2. God's plan involves all these roles (and more), not just one.
3. These distinctions most always revolve around the home and the church, not relationships at large.

Male Roles:

1. Lead.
2. Protect.
3. Provide.

Female Roles:

1. Affirm.
2. Receive.
3. Nurture.
