

## The design of God in Genesis 1-3:

1. An all-powerful, self-sufficient, sovereign, glorious Creator God.
2. A very good creation.
3. A dignified, crowning creation of humans.
4. The presence of evil and rebellion.
5. The eternal plan to rescue humans through a Savior.

*The Creator/Creature distinction informs every action I take, every word I speak, and every thought I think. Most, if not all, of my problems come from too small a view of God, too large a view of myself, or a fear He can't make everything right.*
