

The Sound From Heaven

4/26/26

Rev. Gary Vick

Acts 2:1-4, John 3

- Be receptive to the sound from Heaven
- It's not emotional height or from human effort
- When God moves, it comes down
- When I position myself to receive, the sound will come
- God is trying to get us involved
- It comes suddenly
- You can have a lifetime of bad decisions erased suddenly
- One divine moment is all it takes
- We should not be scared of that moment. It could change your everything
- He just needs the right time
- It's just something I can't ignore
- If you can explain it, it's possibly not God
- You can't explain things in the spiritual realm
- Whatever You've got for me, Jesus, put it on me
- When God shows up, He doesn't just visit
- He's with me always
- He comes to fill the whole room
- The sound produced a response
- When Heaven moves, there will be change and you will respond
