- We have to understand that God is omnipresent, omniscient and omnipotent- He is everywhere, all knowing, and all powerful
- God inhabits time like we inhabit space
- We live inside of time, but God is not limited by time
- He dwells in time
- God knows the ending before we even experience the beginning
- You can trust Him when you can't understand a situation
- He knows!
- Don't let what you see right now make you doubt what God has spoken about your future
- He knew that there would be a need for salvation from sin
- The birth of Jesus was not an emergency plan
- Nothing caught Him by surprise
- God knew that we would all be born under the guilt of sin
- He made a plan of salvation
- Predestinate means to plan ahead
- What is predestinated will come to pass and cannot be altered
- He determined that He was going to have a church. His church will be victorious!
- The people that are called by His name, washed by His blood, will repent for bowing to the idol of entertainment. It changes us and we don't even realize it
- Keep it in perspective
- We're faithful with our attendance but we're slipping in our walk with God
- He knows exactly where we are
