Exodus 17:1-4, Numbers 33:1-3

- The presence of the Lord provides rest
- Where you are can create who you are
- It took 40 years for ISrael to reach its promise
- Grumbling and complaining is in our DNA. It's a battle of your faith
- God's laws were boundaries for all of humanity, written by the hand of God
- Don't let a natural dilemma bury your prior spiritual experience
- We cannot see or comprehend the hand of God at work in our lives when we have been faced with something that we can't control
- Your adversary wants to quarantine you from the Water. He wants to keep you away from the supply and to feel alone
- Don't allow him to keep you isolated
- We have an obligation to serve God with joy and gladness. Your adversary will try to rob you of every ounce of it
- Unthankful hearts will always emerge where there's a lack of water or resources
- Physical issues make you forget that you were once delivered from sin
- We must remember what He's done and share our story
