

September 20 — He Locates

Psalm 139:5

- What does it mean that God is behind you and before you, rather than simply somewhere nearby?
- Have you ever felt like God met you in a particular place or situation? What made that moment or location significant?
- What places, routines, or relationships help you notice God's presence? What tends to distract you from it?
- Are you waiting for the right circumstances to find God instead of paying attention to where He already is?
