

The Compass

The Compass is a tool that we have developed allowing the church to go through a passage of scripture together in various environments.

Whether in a Base Camp (neighborhood home groups), other study groups, or individually, the passage/topic for the upcoming Sunday is layed out in daily devotional form.

Since the upcoming passage for the next Sunday is presented, you are able to walk into the service that Sunday having already spent time in the passage and supporting passages.

Compasses are handed out on Sunday morning at the door, for the upcoming week's passage and topic. As well, you can get the Compass, as well as past editions, on this App.
