

11 February 2026

Dear Family and Friends,

In my book, ***How I Hear from God, A Missionary's Testimony***, I mentioned that about a year ago, I sensed (had a word of knowledge) about a young lady who was pregnant. I asked her privately if she and her husband wanted to have children. She said, 'yes, we were hoping to have children'. So, I told her I sensed that she was already pregnant. Two weeks later, she ran up to me, hugged me and said that I was right. I thought 'what was I right about'? She said she was pregnant. Mid-December, I got to hold her beautiful little daughter, E., for the first time. Here's a picture of her. New family, new friend. Her parents say she is a happy baby and sleeps through the night even at 2 months.

Belgian national elections were held 9 June 2024. It has been over 600 days since those elections, and we still do not have a Brussels government. We have a Prime Minister. But, each person who has been appointed by the King of Belgium to form a government for Brussels, has failed. Currently, representatives of seven political parties, whom each speak French and Dutch, are meeting together to form the Brussels government. Belgium has several levels of governments, which is a little complicated. **Will you please join me in praying for the Brussels government to finally be formed?** Budgets, among other things can not be established without this government in place.

Ever since finding out **last November that my A1c** (sugar level) **was extremely high** and that I'd need to take Ozempic injections, I've **felt overwhelmed**. Just like back in 2015 when I first was told I had Type 2 diabetes. It took awhile for my Belgian health insurance to authorize payment for the injections. And then giving myself an injection in the belly has been a challenge as I am not fond of needles.

Also, the side affects of the medication have upset my digestive tract, giving me headaches, making me feel tired... I have given myself my fourth injection. They don't hurt. I'm getting used to giving them to myself. Next week, I will have a higher dose of Ozempic once a week for four weeks; then the maximum dose after that. **Please pray that the adverse side effects will slow down and that my body can accept the medication to reduce my A1c.**

**Thank you** to all who prayed for and gave for my bills to be paid off in 2025. **They are paid in full!** But, for whatever reason, my income in January, which I will receive 15 February, is **unusually low**. I won't have enough to pay my rent on 20 February. **I have paid for my Belgian health insurance for 2026 already. Will you pray for the gap to be filled and my expenses to be paid?**

Also, my landlord raised my rent by 85 Euros (\$99) per month. It's called the cost of living index and is authorized by the government. Well, I don't receive any cost of living increase in my income... I was reminded that "**nothing is too difficult for God**". The Lord can provide that extra 85 Euros (\$99) per month, as He always has. **Will you join me in praying for that increase in my finances? Will you ask the Lord if you are to help me out through your generous gifts?** Thank you.

**May God's Kingdom come here on earth as it is in Heaven!**

Love in Christ, *Carol*
