My roses are now flourishing from all the rain. Part of the joy here in TZ is that I can garden and expect flowers all year long!

*Greetings to you all, family and friends, I am so thankful that the tree tragedy is nearly behind us. I only have to remove 2 more pieces of the cut trunk and roots of the tree that fell over. I believe we are near to getting everything back in order. Thank you for your prayers and concerns. We are all good. We thank God for His Hand of protection in our lives in every way. I am looking forward to sending pictures of the redesigned area.. I love God's creation and I love caring for it.*

One of the things I love doing most is teaching my kids and some of my disciples how to cook and bake. Johansen loves making pizza... and he loves eating pizza. Me too!

Our TEA TIME group, D. Rosalia, Linda, myself and Mboka. We have succeeded again at supporting an orphanage with some of the food they need to take good care of the orphaned children. We love that God allows us to do this anonymously.

At my front door: I have received so many wooden carved items, like animals and pots and I love making little vignettes at my front door. I love the comments that are given and many compliments of my creativity. ALL GLORY TO GOD OUR CREATOR!!!

*I would like to take this opportunity to thank those of you who helped me get my daughter out of India when things were very challenging. Those who sent the funding we needed to buy her airline tickets and your loving support during this situation are so much appreciated. We bless you in the name of Jesus and give God all the Glory.*

*I also want to thank those who have increased their financial support of the discipleship and mentoring that I am doing here in Moshí. I love that God can use us no matter what our age or our life situation. He is faithful in all He has appointed and anointed us to do. We love you all, Alice, Gloria. & Johansen*
