

# REMNANT'S REST

**Mark 1:35**

Jesus got up, left the house and went off to a solitary place, where he prayed.

What a mess! I am trying to save our 25-year-old water heater. I had to replace some internal parts. The worst moments came when the water flooded the bathroom and water heater closet.

That event reminds me of the times I try to move forward in God and it seems like a greater mess is made. But, He has a way of making all things new. We are still the same old vessel but we have been rebuilt to work better than ever for His Kingdom.

I park the tractor under a cloth shelter. I was pulling the tractor out when the roof collapsed from the ice and snow. Ice landed on my hand, breaking one finger. The doctor was impressed with the support I designed for my finger and printed on my 3D printer.

I was returning from an appointment and I really needed to talk to someone. I was discouraged and frustrated with my knee

and other issues. **I prayed that God would help me figure out who to talk to just to get it off my chest.** Stephanie is living though it with me and I was hoping to talk to someone who might have some clarity and a listening ear.

**Within a few minutes** a friend called saying he was out on a motorcycle ride and thought about stopping by my place on his travels. It was a productive and spiritual time for me, filled with prayer and healing.

## Pray for Remnant's Rest

**My knee is so much worse. We are struggling to find a surgeon who will replace my knee given my circumstance. I am not able to walk very well or far, so exercise is difficult, and my serious digestive issues interfere with weight loss.**

**As we push forward this year to work on the kitchenette that wisdom and finances come to make it a comfortable and engaging place.**

*We thank God for each one of you, your prayers and your support as we complete the guest area of our home and welcome ministers for a time of renewal and refreshing.*
