

Treasure House

Dear Family and Friends,

Thank you for your prayers! I have been petitioning the Lord to bring in some additional help and now have it in abundance. Two young women needed a place to live and work, so they've been helping me for several weeks. Additionally, an older woman and her precious adult daughter with disabilities have just moved in. The more loving hearts we have here holding, speaking and listening to the girls the more accepted and secure they feel. Please pray for all to go well with these new employees.

Just a few teenagers clowning around! Wow, how this does my heart good. They've experienced so much trauma, but because we've introduced them to Jesus and the importance of forgiveness, they're learning to walk in joy as they overcome horrible experiences. These past two months, we've focused on ways to bless one another as well as teaching the girls about respect - what others can do to help them feel respected and how they can show respect for others. We've seen some improvement in their behavior and know, with prayer and the Lord's help, all things are possible!

Visiting theme parks is not the typical activity we have the means to participate in, but we made it work for the girls' short spring break. This fun ride shot the girls way up to the top and straight back down, with screams and shrieks followed by laughter from all! They enjoyed a big splash on the huge water slide and pool of suds, then finished out the week swimming in a solar heated pool (needed here on the property!) and all the hamburgers and hot dogs one could possibly eat!

I recently had the amazing opportunity to be a guest of Dr. Michael Brown (founder and vice president at FIRE International, radio host of "The Line of Fire", author, etc.) at Christ For The Nations Int. I was able to share the mission and vision of Treasure House with several hundred students and connected with the missions department in order to welcome short term and, eventually, long term missionaries!

Prayer Requests:

1. \$100k for new dormitory
2. Team to come and rebuild kitchen
3. Missionaries with a similar vision to eventually become co-directors
4. \$60/girl/month for school at LAN
5. New employees to settle in well

Blessings, Karen J David
