

# THE BUCKWHEAT'S

“ Faith is the catalyst for the manifestation of HIS Plans ”

## Reminiscing on God's Goodness

From the time we went to FIRE School in 2001 until the call to Restoring the Foundations Ministry we watched God move in many supernatural ways in our lives and the lives of those He put before us. After graduating in 2004, until we started our training for RTF in 2008, we had the opportunity to serve in ministries here in Michigan and Arizona. Both of those ministries were very different but God moved very powerfully in the lives of those there and taught us so much about who we were all in preparation for what we still are doing 15 years later as RTF ministers and Trainers. We have been honored to minister to a couple thousand of God's kids, of which many were our Veterans. What He has done and continues to do in such a short amount of time is nothing less than a miracle.

## Finally the last phase...the excavation!

Yes that is Fill dirt!

If you remember what seems like so long ago we were talking about the final stage of the project which is the excavation (fill dirt and driveway coming in).

At first we were told that **100 yards** will work.... Then maybe **250 yards** will be needed. Well after I don't know how long, the young man that helped cut down the first tree when we started this whole process and his father in-law who was the excavator who donated removing the stumps and clearing the land came out. They both looked at it and said to do it right we will need a minimum of **500 yards of fill and maybe 700**....I just started to laugh. "So what will it cost us ?" After a couple months he got back to us.....No you will not have to wait until the next episode next week ....just turn the page over. Lol

“ The fill dirt has to go all the way across the front of the houses and on both sides”

The rest of the story .... And the winner is .... **\$26,000.00. yes that is correct !**

**Hear is the breakdown**

**-\$17,000 for the fill to be brought in and brought up to grade.**

**-\$9000 to build up the driveway with (A24 road gravel and or Afton stone)**

The thing is we know these people, They helped us in the very beginning and trust them. They are a Christ following family and have a heart for what we are doing.

Ever since COVID and now the stagflation and inflation, the price of hard materials have gone up so much that it's crazy even to the point you don't lose hope, but you laugh because ONLY GOD can do something like this.

Here is some more skinny .... In the picture, there is 5 loads of fill which is 50 yards that has been delivered so far. When you stand next to it, it almost looks like there is double the fill that is there.

Here is what we are praying and believing for...“ Loaves and Fishes” yes God can multiply even fill dirt!

Marshall Excavation will work with us and do it in stages...BUT GOD!!!

We are believing that in the natural and on paper it will take 1/2 of what they figure so the cost will be half.

So we start with \$3000 and than add \$5000-\$7000 I think we will have it.

**Here's how you can help ... A One time gift or a Monthly gift of \$20 or any amount. You can also sponsor a 10 yards load of Fill for a one time donation of \$200 or in a monthly gift of just \$10.**

**It may not sound like much but 20 people willing to help with \$20 a month will get us to the minimum.**

**You can donate on-line or through snail mail. Information for both is below.**

**Remember all donations are tax deductible. When donating specify Buckwheat “Building Project”**

Thanks so very much for believing with us!!!

Love Braverd and Donna
